Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Nobility Homes Inc. business.

About Nobility Homes Inc.

Nobility Homes, Inc. engages in the design, manufacture, and sale of a line of manufactured homes through a network of its own retail sales centers in the United States. The company also sells its manufactured homes on a wholesale basis to independent manufactured home retail dealers and manufactured home communities.

Manufactured Homes

The company's homes are available in approximately 100 active models sold under the trade names 'Kingswood,' 'Springwood,' 'Springwood Special,' 'Tropic Isle Special,' 'Regency Manor Special,' and 'Special Edition.' The homes, ranging in size from 700 to 2,650 square feet and containing from one to five bedrooms, are available in: double-wide widths of 24, 26, 28 and 32 feet ranging from 32 to 76 feet in length; triple-wide widths of 36, 38 and 42 feet ranging from 46 to 72 feet in length; and quad-unit 2 sections 28 feet long by 48 feet long and 2 sections 28 feet long by 52 feet long.

Retail Sales

The company's wholly-owned subsidiary, Prestige Home Centers, Inc. (Prestige), operates 15 Florida retail sales centers: Ocala, Chiefland, Tallahassee, Tampa, Lake

City, Auburndale, Inverness, Hudson, Tavares, Jacksonville, Yulee, Pace, Panama City, and Punta Gorda. The primary customers of Prestige are homebuyers who purchase manufactured homes to place on their own home sites. Prestige operates its retail sales centers with a model home concept. Each of the homes displayed at its retail sales centers is furnished and decorated as a model home.

Insurance and Financial Services

Mountain Financial, Inc., a wholly-owned subsidiary of Prestige Home Centers, Inc., is an independent insurance agent, licensed mortgage lender and mortgage broker. Its principal activity is providing retail insurance services, which involves placing various types of insurance, including property and casualty, automobile and extended home warranty coverage, with insurance underwriters on behalf of its Prestige customers in connection with their purchase and financing of manufactured homes.

Wholesale Sales to Manufactured Home Communities

The company sells its homes on a wholesale basis exclusively to approximately 30 manufactured home communities.

History

Nobility Homes, Inc. was founded in 1967.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
