The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Northern Superior Resources, Inc. business.

About Northern Superior Resources, Inc.

Northern Superior Resources, Inc., an exploration stage company, engages in the identification, evaluation, acquisition and exploration of primarily gold properties, and also properties involving diamonds in Ontario and Québec.

Mineral Properties

GOLD PROPERTIES

TI-PA-HAA-KAA-NING GOLD PROPERTY: The Ti-pa-kaa-haa-ning project is a 50/50 joint venture between the company and Lake Shore Gold Corp. The company is the operator of the joint venture. The mineral property consists of 153 claims totaling 32,208 hectares.

THORNE LAKE GOLD PROPERTY: The property is underlain by rocks of the Ellard Lake greenstone belt, and is located 15.5 kilometers west of the Sachigo River gold mine. This past producing mine generated 52,560 ounces of gold from 46,416 tons of ore.

WACHIGABAU GOLD PROPERTY: In January 2009, the company signed an option

and joint venture agreement with Matamec Exploration Inc. to explore for all commodities on the Wachigabau property in the Desmaraisville area of west-central Québec, with a particular focus on gold and base metals. The Wachigabau property includes the original L'Espérance property and other claims, which collectively contains 359 claims covering an area of 14,578 hectares, and would be explored under a new name, the Wachigabau property.

VILLE MARIE & L'ESPÉRANCE DIAMOND PROPERTIES

VILLE MARIE PROJECT: The Ville Marie project is 100% owned by Northern Superior, except for property associated with the Lac Honorat kimberlite pipe. The property consists of ground owned by FieldEx Exploration Inc., of which Northern has 100% rights to the diamonds.

L'ESPÉRANCE PROJECT: The L'Espérance Project lies within the traditional territory of Waswanipi First Nation. Upon discovery of a diamondiferous kimberlite, Northern Superior would negotiate a Memorandum of Understanding with the Waswanipi First Nation.

URANIUM PROPERTIES

NORTH THELON URANIUM PROJECT: In 2008, the company sold its interests in the North Thelon Uranium project.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
