Abstracts

Northgate Minerals Corp. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Northgate Minerals Corp. and its competitors. This provides our Clients with a clear understanding of Northgate Minerals Corp. position in the Industry.

The report contains detailed information about Northgate Minerals Corp. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Northgate Minerals Corp.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Northgate Minerals Corp. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Northgate Minerals Corp. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Northgate Minerals Corp. business.

About Northgate Minerals Corp.

Northgate Minerals Corporation engages in mining and exploring for gold and copper with operations, development projects, and exploration properties in Canada and Australia.

The company's principal assets are Kemess mine, Fosterville, Stawell, and Young-Davidson. As of December 31, 2009, Kemess, Fosterville, Stawell, and Young-Davidson amounted to total proven and probable reserves of 3,754,296 ounces of contained gold, with a further 7,848,307 ounces of contained gold in measured, and indicated resources and 1,552,850 ounces of contained gold in inferred resources.

Mineral Projects

Kemess

The Kemess mine, owned and operated by the company, is a low-grade open pit mine that processes its ore through a flotation mill circuit in British Columbia, Canada. The Kemess mine is situated in north-central British Columbia approximately 430 kilometers northwest of Prince George. The Kemess property consists of 4 mining leases, 57 cell and legacy mineral claims, and 1 surface rights license, collectively covering 32,610 ha

(80,580 acres).

Young-Davidson

The company owns 100% of the mineral rights to all of the mineral resource related claims at the Young-Davidson Mine (the YD Mine) and the adjoining Matachewan Consolidated Mines Limited Mine (the MCM Mine). It also holds the mineral rights to various claims that are contiguous with the YD Mine and MCM Mine. Young-Davidson is located immediately west of the village of Matachewan, Ontario, and approximately 60 miles west of the town of Kirkland Lake, Ontario. Young-Davidson comprises 173 tenures related to mining claims, mining leases, patents, and licenses of occupation. The project consists of 89 staked mining claims, 81 mining leases, 2 patented claims, and 1 license of occupation, covering approximately 729 ha of surface rights and 5,038 ha of mining rights.

Fosterville

Fosterville is an underground mine in Australia that recovers gold through a bacterial oxidation, heated leach, flotation, and carbon-in-leach circuit. The Fosterville Gold Mine is located approximately 20 kilometers north-east of the city of Bendigo, and 130 kilometers north of Melbourne in Victoria, Australia. The Fosterville Gold Mine and all associated infrastructure, including the tailings dam, are located on Mining Lease 5404 (ML 5404), which is 100% owned by its subsidiary, Perseverance Corporation Pty Ltd. (Perseverance). ML 5404 has a total area 17.03 square kilometers. The company also holds title through Perseverance of 6 surrounding exploration licenses totaling 1,437 square kilometers.

Stawell

Stawell is an open pit and underground mine in Australia that recovers gold through a carbon-in-leach circuit following sulphide flotation. The Stawell Gold Mine is located in the State of Victoria, 250 kilometers northwest of Melbourne and 2 kilometers from the township of Stawell. The mine's principal approval is its Mining Lease (ML 5260). ML 5260 encompasses both the Magdala and Wonga mines and is located both under and around the township of Stawell with an area of 1000.58 Ha

History

Northgate Minerals Corporation was founded in 1919.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
