- In the part that describes Nuance Communications, Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.
- Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Nuance Communications, Inc. business.

About Nuance Communications, Inc.

Nuance Communications, Inc. provides voice and language solutions for businesses and consumers worldwide. The company's solutions are used for various tasks and services, such as requesting information from a phone-based self-service solution, dictating medical records, searching the mobile Web by voice, entering a destination into a navigation system, or working with PDF documents.

The company markets and sells its products directly through a sales force and through its e-commerce

Web site and also through a global network of resellers, including system integrators, independent software vendors, value-added resellers, hardware vendors, telecommunications carriers, and distributors.

Solutions

The company's solutions are offered in four core markets, including Healthcare, Mobile and Consumer, Enterprise, and Imaging.

Healthcare

The company provides dictation and transcription solutions and services that automate the input and management of medical information. Its hosted and on-premise solutions provide platforms to generate and distribute clinical documentation through the use of advanced dictation and transcription features, and allow it to deliver medical transcription solutions. The company also offers speech recognition solutions for radiology, cardiology, pathology, and related specialties, that help healthcare providers dictate, edit and sign reports without manual transcription. The company's customers include Banner Health, Cleveland Clinic, Department of Veterans Affairs, HCA, Mayo Clinic, Sutter Health, Tenet, and U.S. Army.

Mobile and Consumer

The company's portfolio of mobile and consumer solutions and services includes an integrated suite of voice control and text-to-speech solutions, dictation applications, predictive text technologies, mobile messaging services, and emerging services, such as dictation, Web search, and voicemail-to-text. Its suite of Dragon general purpose desktop and portable computer dictation applications use speech to create documents, streamline repetitive and complex tasks, input data, complete forms, and automate manual transcription processes. It utilizes a focused, enterprise sales team and professional services organization to address market and implementation requirements. Direct distribution is supplemented by partnerships with electronics suppliers and integrators, such as Harman Kardon and Clarion. The company's solutions are used by mobile phone, automotive, personal navigation device, computer, and other consumer electronic manufacturers and their suppliers, including Amazon, Apple, Audi, BMW, Ford, Garmin, HTC, LG Electronics, Mercedes Benz, Nokia, Samsung, T-Mobile, and TomTom. The company's embedded mobile solutions are sold to automobile and device manufacturers, generally on a royalty model priced per device sold, and sometimes on a license model. In addition, its connected mobile services are sold through telecommunications carriers or directly to consumers. Its connected services customers include AT&T, Motorola, Rogers, Telstra, TISA, Vodafone, and Vonage.

The company's desktop and portable computer dictation software is available in 11 languages. It has shipped new versions of Dragon NaturallySpeaking for Windows and also Dragon Dictate for Mac. The company's desktop and portable computer dictation solutions are generally sold under a traditional perpetual software license model. It utilizes a combination of its global reseller network and direct sales to distribute its desktop and portable computer dictation products. Resellers include retailers, such as Amazon, Best Buy, and WalMart. Enterprise customers include organizations, such as law firms, insurance agencies, and government agencies. The company's customers include ATF, Exxon, FBI, IBM, Texas Dept. of Family Protective Services, and Zurich.

Enterprise

The company delivers a portfolio of customer service business intelligence and authentication solutions that are designed to help companies support, understand, and communicate with their customers. Its solutions include the use of technologies, such as speech recognition, natural language understanding, text-to-speech, biometric v
