## Abstracts

Nutra Pharma Corporation Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Nutra Pharma Corporation and its competitors. This provides our Clients with a clear understanding of Nutra Pharma Corporation position in the [Pharmaceuticals and Biotechnology](#) Industry.

The report contains detailed information about Nutra Pharma Corporation that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Nutra Pharma Corporation. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Nutra Pharma Corporation financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios

pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Nutra Pharma Corporation competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Nutra Pharma Corporation business.

## **About Nutra Pharma Corporation**

Nutra Pharma Corp., a biopharmaceutical company, engages in the acquisition, licensing, and commercialization of pharmaceutical products and technologies, as well as homeopathic and ethical drugs for the management of pain, neurological disorders, cancer, autoimmune, and infectious diseases.

The company's operations are conducted through its two wholly owned subsidiaries, ReceptoPharm, Inc. (ReceptoPharm) and Designer Diagnostics, Inc. (Designer Diagnostics).

### **Products**

#### **Cobroxin**

The company offers Cobroxin, its over-the-counter pain reliever clinically proven to treat moderate to severe (stage 2) chronic pain that was developed by ReceptoPharm, its drug discovery arm and wholly owned subsidiary. Cobroxin is marketed through its United States distributor, XenaCare Holdings, Inc. (XenaCare), both online and at various retailers. Cobroxin is available as a two ounce topical gel for treating joint pain

and pain associated with arthritis and repetitive stress, and as a one ounce oral spray for treating lower back pain, migraines, neck aches, shoulder pain, cramps, and neuropathic pain.

### Nyloxin OTC/Nyloxin Rx

The company intends to market Nyloxin OTC and Nyloxin Rx as treatments for moderate to severe (stage 2) chronic pain. Nyloxin OTC would be available as an oral spray for treating lower back pain, migraines, neck aches, shoulder pain, cramps and neuralgia as a topical gel for treating joint pain and pain associated with repetitive stress and arthritis. Nyloxin Rx would be available as an oral spray and gel application for treating the same physical indications, as well as angina pectoris, angina faucium, and ovarian pain, but is targeted at treating the severe (Stage 3) pain that inhibits one's ability to function fully. The company intends to begin selling Nyloxin Rx in the form of gel and spray products outside of the United States upon completion of international drug registrations.

### Other Products

Additionally, ReceptoPharm has developed two drug candidates: RPI-78M, to treat the neurological diseases, including multiple sclerosis (MS), adrenomyeloneuropathy (AMN), amyotrophic lateral sclerosis (ALS or Lou Gehrig's disease ), and myasthenia gravis; and RPI-MN, to treat the viral diseases, including HIV/AIDS and Herpes.

ReceptoPharm is developing proprietary therapeutic protein products primarily for the prevention and treatment of viral and neurological diseases, including Multiple Sclerosis, AMN, human immunodeficiency virus (HIV), and pain in humans.

ReceptoPharm also provides contract research services through its certified facilities.

The company's other wholly-owned subsidiary, Designer Diagnostics, engages in the research and development of and sale of diagnostic test kits designed to be used for the identification of infectious diseases, such as nontuberculous mycobacteria (NTM). Designer Diagnostics' Nontuberculous Mycobacteria test kits are being marketed to a global audience, including hospitals; pharmaceutical companies; biotechnology companies; medical device distributors; governmental organizations; environmental testing facilities; and government water and soil testing facilities at the local, state and federal levels.

### Competition

ReceptoPharm's competitors include Amgen, Aventis, Cephalon, Genetech, Genzyme, Immunex Corp., Novartis, Regeneron, and Schering-Plough. Designer Diagnostics competes with Becton, Dickinson and Company.

## History

Nutra Pharma Corp. was founded in 2000.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

### Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

### **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
