The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Oakridge Holdings Inc. business.

About Oakridge Holdings Inc.

Oakridge Holdings, Inc. engages in design, engineering, and manufacture of aviation ground support equipment serving the United States Armed Services and businesses domestically and internationally. The company also operates cemeteries.

Cemetery Operations

The company, through two wholly owned subsidiaries, Oakridge Cemetery (Hillside), Inc. and Glen Oak Cemetery, Inc., operates two adjacent cemeteries in Hillside, Illinois. Together the cemeteries include approximately 176.7 acres of real estate, of which 12.8 acres are used for interior roads and other improvements. The remaining 163.9 acres contain 137,000 burial plots. In addition to providing interment services, burial plots and crypts, the company sells cremation services and has a chapel in the Mausoleum.

Stinar Operations

The company's subsidiary, Stinar Corporation (Stinar), provides products and services to the aviation industry in three principal areas, including sales of new equipment manufactured for maintaining, servicing and loading of airplanes; sales of parts for equipment sold in the past; and repair of equipment.

Stinar provides truck-mounted stairways and push stairs for loading aircraft; lavatory trucks and carts, water trucks, bobtails, and catering trucks for servicing aircraft; cabin cleaning trucks, maintenance hi-lifts, and turbo oilers for maintaining aircraft; and other custom built aviation ground support equipment used by airports, airlines and the military. Stinar also provides service and repairs on other vendors' equipment and equipment it has sold. Stinar sells its products to airports, airlines, and government and military customers in the United States.

Competition

The company's domestic competitors include Global Ground Support, LLC in catering equipment; Lift-A-Loft Corporation and NMC-Wollard in passenger stairs; Lift-A-Loft Corporation, NMC-Wollard, and Phoenix Metal Products in lavatory and water carts; and Tesco Equipment Corporation, Lift-A-Loft Corporation, and NMC-Wollard in hi-lift equipment. International competitors include Mullaghan Engineering in catering equipment; and Accessair Systems, Inc. and Vestergaard Company, Inc. in water and lavatory carts.

History

Oakridge Holdings, Inc. was incorporated in 1961.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
