In the part that describes Ocean Shore Holding Co. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Ocean Shore Holding Co. business.

About Ocean Shore Holding Co.

Ocean Shore Holding Co. operates as the holding company for Ocean City Home Bank, which offers a range of financial services to consumers and businesses in its market area. The company attracts deposits from the general public, small businesses, and municipalities and uses those funds to originate various consumer and commercial loans, which it holds primarily for investment.

The company's main office is located in Ocean City, New Jersey, and serves the southern New Jersey shore communities through 10 full service offices, including 8 in Atlantic County and 2 in Cape May County.

Lending Activities

One- to Four-Family Residential Loans: The company's primary lending activity is the origination of mortgage loans to enable borrowers to purchase or refinance existing homes in its market area. It offers fixed-rate and adjustable-rate mortgage loans with terms of approximately 40 years.

Commercial and Multi-Family Real Estate Loans: The company offers fixed-rate and adjustable-rate mortgage loans secured by commercial real estate. Its commercial real

estate loans are secured by condominiums, small office buildings, and owner-occupied properties located in its market area and used for businesses. The company originates fixed-rate and adjustable-rate commercial real estate loans for terms of approximately 20 years.

Construction Loans: The company originates loans to individuals and builders to finance the construction of residential dwellings. It also makes construction loans for commercial development projects, including condominiums, apartment buildings, and owner-occupied properties used for businesses.

Commercial Loans: The company makes commercial business loans to various professionals, sole proprietorships and small businesses in its market area. It offers term loans for capital improvements, equipment acquisition and long-term working capital. These loans are secured by business assets other than real estate, such as business equipment and inventory. It also originates lines of credit to finance the working capital needs of businesses to be repaid by seasonal cash flows or to provide a period of time during which the business can borrow funds for planned equipment purchases. It offers time notes, letters of credit, and loans guaranteed by the small business administration.

Consumer Loans: The company's consumer loans primarily include home equity loans or lines of credit. Its consumer loan portfolio also includes loans secured by passbook or certificate accounts, secured and unsecured personal loans, and home improvement loans.

Investment Portfolio

As of December 31, 2009, the company's investment portfolio included securities of U.S. government and agencies; agency mortgage-backed securities; corporate debt securities; municipal securities; and equity securities and mutual funds.

Deposits

The company offers a selection of deposit instruments, including noninterest-bearing demand accounts (such as money market accounts), regular savings accounts, and certificates of deposit. In addition to accounts for individuals, the company also offers various deposit accounts designed for the businesses operating in its market area. The company's business banking deposit products include commercial checking accounts, a sweep account, and special accounts for realtors, attorneys, and non-profit

organizations.

History

Ocean Shore Holding Co. was founded in 1887.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
