## Abstracts

Omnicell Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Omnicell Inc. and its competitors. This provides our Clients with a clear understanding of Omnicell Inc. position in the [Software and Technology Services](#) Industry.

The report contains detailed information about Omnicell Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Omnicell Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Omnicell Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your

company's decision-making processes.

In the part that describes Omnicell Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Omnicell Inc. business.

### **About Omnicell Inc.**

Omnicell, Inc. provides automated solutions for hospital medication and supply management. The company's healthcare automation solutions are designed to enable healthcare facilities to acquire, manage, dispense and administer medications and medical-surgical supplies.

#### Products and Services

The company's medication-use product line includes systems for medication dispensing in acute care nursing departments, central pharmacy automation, physician order management, and nursing workflow automation at the bedside. Its combination medication-use and supply products allow the operating departments to store, track and dispense medications and supplies through a single system while optimizing the workflows for each type of medication or supply managed. The company also provides services, including customer education and training to help customers to optimize their use of its technology.

#### Medication Use Products

The company's medication-use product line includes its OmniRx, SinglePointe, AnywhereRN, Anesthesia Workstation, WorkflowRx, SecureVault, OmniLinkRx, Mobile

Carts, and SafetyMed products.

### Nursing Floor Solutions

The OmniRx solution is the core of its medication control solutions. The OmniRx solution is a dispensing cabinet that automates the management and dispensing of medications at the point of use, featuring biometric fingerprint identification, single-dose dispensing, barcode confirmation and a range of drawer modules enabling the establishment of various security levels. Software features of the OmniRx include patient profiling, notification of medications due, various security features, waste management, clinical pharmacology, and integration with an Internet browser for clinical reference information.

The SinglePointe solution is a software extension to the OmniRx solution that allows pharmacists to automate the distribution of specially handled medications, enabling control of up to 100% of all medications through the automated dispensing system.

The AnywhereRN solution is a software solution that allows nurses to operate the automated dispensing cabinets from remote workstation within the hospital. This software enables workflow for nurses such that they are no longer limited to being directly in front of the cabinet to perform certain medication administration functions. Anywhere RN is intended to reduce nurse distractions in the medication administration process as cabinet operations can be done in private or quieter areas. It is also intended to eliminate congestion at the cabinet by minimizing nurse queuing to withdraw medications.

The SafetyMed solution is a nursing workflow automation and barcode medication administration system.

The Mobile Cart solution provides a mobile workstation for nurses, equipped with locking drawers for secure transportation of medications and patient supply items.

### Central Pharmacy Solutions

The OmniLinkRx solution is a physician order software product that automates communication between nurses and the pharmacy. Used in the central pharmacy, the OmniLinkRx solution simplifies the communication of handwritten physician orders from remote nursing stations to the pharmacy.

The WorkflowRx solution is an automated storage, retrieval, inventory management and repackaging solution for the central pharmacy. It is designed to help pharmacists ensure that the right medications are stored in and retrieved from proper locations, both in the central pharmacy and in automated dispensing cabinets. The WorkflowRx solution is deployed on a storage and retrieval carousel, on a repackaging system or on both. Barcode administration through the WorkflowRx solution is designed to help ensure that medications are stocked correctly from their point of entry into the healthcare facility. Labeling medications with barcodes, utilizing a repackaging system enables bedside medication administration solutions, such as the SafetyMed solution, to perform barcode checking at the patient bedside.

The SecureVault solution is a controlled substance barcode inventory management system. The SecureVault software, coupled with its automated dispensing technology, enables healthc

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
