term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes OneLink Corporation competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of OneLink Corporation business.

## **About OneLink Corporation**

OneLink Corporation, a development stage company, engages in marketing, distribution, financial settlement and other related business-to-business services for hotels, travel service providers and travel agencies.

The Company engages in the development and introduction of a booking and settlement system for the non-airline segment of the travel industry.

The Company's OneLink service is designed to provide travel suppliers with a direct connection and integrated payment mechanism to enable business with travel agents worldwide. Through its technical, commercial and contractual design, the company has created an opportunity for suppliers of all sizes to sell their products on a pre-paid basis through travel agents worldwide, and to receive payment, often in advance of providing the product, in their own currency. The Company's service removes the need for suppliers to negotiate individual commercial agreements with individual travel agents, and removes the tracking and administration of commission payments to agents in a multiplicity of currencies. The Company's service offers access to various on-line bookable non-air travel products, all of which would be pre-paid.

The Company's OneLink service connects the host reservation systems of travel

suppliers with travel agencies through the Internet and proprietary networks around the world. OneLink is designed to streamline the financial settlement process and allow both travel suppliers and local travel agencies to gain access to a major market.

### Subsidiaries

The Company's wholly owned subsidiaries include Onelink4travel Limited (a United Kingdom entity), The Call Center, LLC (TCC) and Reservation Center, Inc. (RCI).

### Acquisition

In April 2005, the company acquired The Call Center LLC (TCC), a marketing services company that provided telemarketing, customer service, payment collection and marketing survey services for major U.S. corporate clients.

In May 2005, the company acquired Reservation Center, Inc. (RCI) a travel agency consortia (buying group) and 24/7 reservation center service, with 13,000 hotel and 22,000 travel agent clients. RCI provides reservation center services on behalf of travel agency clients handling problems that its travelers may have, and handling after hours and overflow calls for travel arrangements. RCI also provides structured marketing programs for hotels that are targeted specifically to the travel agency channel.

### Suppliers

The Company's major suppliers include Sabre Travel Network; Amadeus; Hotels.com; and PayPal, Inc.

### Customers

The Company's major customers include Uniglobe Travel, and Satellite Dish/Direct TV.

### History

OneLink Corporation was organized in 2001.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to

the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
