Orbit International Corp. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Orbit International Corp. and its competitors. This provides our Clients with a clear understanding of Orbit International Corp. position in the **Electrical Equipment Industry**.

- The report contains detailed information about Orbit International Corp. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.
- Another part of the report is a SWOT-analysis carried out for Orbit International Corp.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.
- The Orbit International Corp. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.
- In the part that describes Orbit International Corp. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.
- Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Orbit International Corp. business.

### About Orbit International Corp.

Orbit International Corp., through its subsidiaries, engages in the design, manufacture, and sale of customized electronic components and subsystems, commercial power units, AC power, frequency converters, uninterruptible power supplies, and commercial-off-the-shelf (COTS) power solutions. It also performs system integration for gun weapons systems and fire control interface, as well as logistics support and documentation.

## Segments

The company operates in two industry segments. Its Electronics Group comprises its Orbit Instrument Division, its TDL Development Laboratory, Inc. (TDL) subsidiary, and its subsidiary, Consulting Services, Inc. doing business as Integrated Combat Systems (ICS). Orbit Instrument and TDL are engaged in the design and manufacture of electronic components and subsystems. The company's Power Group comprises Behlman Electronics, Inc. (Behlman) subsidiary and is engaged in the design and manufacture of commercial power units.

### Electronics Group

The Electronics Group designs, manufactures, and sells customized panels, components, and subsystems for contract program requirements to prime contractors, governmental procurement agencies and research and development (R&D) laboratories, primarily in support of specific military programs. It also provides commercial, non-military 'ruggedized hardware' (hardware designed to meet severe environmental conditions) for prime contractor programs. Products include various custom designed 'plasma based telephonic intercommunication panels' for secure voice airborne and shipboard program requirements, 'full-mil keyboards', trackballs and data entry display devices.

The Electronics Group's products, which are designed for customer requirements on a firm, fixed-price contract basis, have been incorporated into systems deployed on surveillance aircraft, including E-2C, E-2D, Joint Surveillance Target Attack Radar Systems (J/STARS), Lookdown Surveillance Aircraft (AWACS) and P-3 (anti-submarine warfare) requirements, and shipboard programs, including AEGIS (Guided Missile Cruisers and Destroyers), DDG'S (Guided Missile Destroyers), BFTT (Battle Force Tactical Training), LSD'S (Amphibious Warfare Ships) and LHA'S (Amphibious Warfare Ships) applications, as well as various land based guidance control programs, including the TAD (Towed Artillery Digitization) fire control system.

Through ICS, the Electronics Group also performs analysis and evaluation of medium and major caliber Naval Gun Weapon Systems performance, including interoperability and compatibility with combat systems, interface systems, ammunition, subsystems and components; engineering requirements, such as the design, integration; and production of medium and major caliber Naval Gun Weapon Systems' components; and engineering supplies and services in support of medium and major caliber Naval Gun Weapon Systems initiatives, including the development of test plans, test equipment, test articles/units, analyses, trouble shooting, repair, maintenance, and reporting.

### Power Group

The Power Group manufactures and sells power supplies, AC power sources (equipment that produces power that is the same as what would be received from a public utility), 'frequency converters' (equipment that converts local power to equivalent foreign power), 'uninterruptible power supplies (UPS)' (devices that allow a computer to operate while utility power is lost), associated analytical equipment and other electronic equipment. The military division of its Behlman subsidiary designs and manufactures power solutions that use COTS power modules to meet customer specifications.

## Products

### Electronics Group

IFF- Identification Friend or Foe: The company's Orbit Instrument Division has designed and developed a remote control unit (RCU) that has supported the common transponder (CXP) program for both the U.S. Navy and U.S. Army. Its RCU has been qualified for shipboard, aircraft, and ground based programs, which are functional and supporting U.S. forces in air, sea, and ground battlefield conditions. Orbit's RCU has embedded proprietary software code for Mode S, Enhanced Traffic Alert and Collision Avoidance System

The above Company Fundamental Report is a half-ready report and contents are subject to change. It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.
