Such information creates your awareness about principal trends of Oriental Press Group Ltd. business.

About Oriental Press Group Ltd.

Oriental Press Group, Ltd. (the company or the group) is incorporated in Hong Kong. Its ultimate holding company is Ma's Holdings Limited, a private limited company incorporated in the British Virgin Islands. The company is an investment holding company, engages in the publication of newspapers and magazines in Hong Kong. The company, through its subsidiaries, engages in property leasing and building management activities. In addition, it provides human resource services, printing services, publication services, and Web site services.

The group operates Oriental Daily News and The Sun, which are daily newspapers and The Sun Racing Journal.

Oriental Daily News" has been in operation in Hong Kong from the past 27 years.

"The Sun" has drawn a large number of young readers and emerged as "a newspaper for the young generation". In addition to refreshing the layout design of the sections like Local News, Finance, Entertainment, Sports and Horse Racing, contents were also strengthened to meet the preferences of the young readers. Furthermore, to cater for readers who are in pursuit of lifestyles, "The Sun" has also enriched its contents by incorporating the information about automobiles, education, campus life, computer

technologies, life styles, trendy fashions, delicious food, entertainments and traveling into the Features Section. To fully reflect its distinctive, young, vivid and energetic style, dedicated sections of “Chiu Yeung” and “Ming Yue” have been specifically designed for male and female readers.

“The Sun Racing Journal” has been a major player in the horse racing publications industry. “The Sun Racing Journal” has established a very extensive racing database, which is one of the most valuable assets of the Group.

“orisun.com”, the flag-ship portal of the Group, reports a daily average page view of nearly 9 million upon restructuring during the year. Moreover, the group newly launched websites - “Oriental Daily News Paper” and “The Sun Paper”.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
