Such information creates your awareness about principal trends of Orkla ASA business.

About Orkla ASA

Orkla ASA operates in the branded consumer goods, aluminium solutions, materials, renewable energy and financial investment sectors.

Business Areas

Orkla Brands

Orkla Brands is a supplier of branded consumer goods and concept solutions, primarily to the Nordic grocery and catering sectors. The business area consists of four units: Orkla Foods Nordic, Orkla Brands Nordic, Orkla Brands International and Orkla Food Ingredients.

Orkla Aluminium Solutions

Sapa develops, manufactures and markets value-added profiles, profile-based building systems and heat-exchanger strip in aluminium.

Sapa consists of the three business units Sapa Profiles, Sapa Building System and Sapa Heat Transfer, and is represented in Europe, North America and Asia. Its business concept is based on close collaboration with its customers. Sapa is a leader in

its field and has customers in the building, transport, engineering and telecommunications industries.

Orkla Materials

Orkla Materials consists of the companies Elkem and Borregaard. Elkem engages in the production of metals and materials. Its main products are silicon, highpurity silicon for the solar industry, special ferrosilicon alloys for the foundry industry, carbon, microsilica and energy. Borregaard is an advanced biorefineries. It produces a variety of advanced biochemicals and biomaterials that are sustainable alternatives to oil-based products.

Orkla Associates

Orkla Associates primarily consists of Orkla's investments in the Renewable Energy Corporation ASA (REC) and Jotun AS. Orkla owns a 39.73 % stake in REC and a 42.5 % stake in Jotun.

Orkla Financial Investments

Orkla Financial Investments consists of three main businesses: the Share Portfolio, Orkla Finans and Orkla Eiendom. The Share Portfolio staff manages portfolios, which primarily comprise investments in the Nordic region, Eastern Europe and Asia. Orkla Finans offers investment services to institutional and private investors, while Orkla Eiendom invests in and develops real estate properties. This business area also includes Borregaard Skoger, which develops and manages Orkla's forests.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
