Overland Storage Inc. Due Diligence Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Overland Storage Inc. and its competitors. This provides our Clients with a clear understanding of Overland Storage Inc. position in the **Computers and Electronic Equipment Industry**.

- The report contains detailed information about Overland Storage Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.
- Another part of the report is a SWOT-analysis carried out for Overland Storage Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.
- The Overland Storage Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.
- In the part that describes Overland Storage Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.
- Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Overland Storage Inc. business.

About Overland Storage Inc.

Overland Storage, Inc. provides data management and data protection solutions for moving and storing data throughout the organization and during the entire data lifecycle.

Products and Services

The company's data management and data protection solutions provide SMEs, SMBs, enterprise

departments and branch offices with disk-based systems for primary or nearline storage, disk backup and recovery, and software for data management and protection. For long-term storage requirements, it offers solutions for tape backup and archive.

Snap Server SAN Storage Area Network (SAN) Solutions

The company's SnapSAN product line provides block-based primary storage for virtual server environments and low latency applications. Systems can be managed directly through Windows or VMware vCenter, and the intuitive management console employs guided wizards. The SnapSAN products also offer a set of features, including auto provisioning, mirroring for high availability, replication, and snapshots for data protection.

The company's SnapSAN S2000 is a 2U iSCSI SAN appliance designed for administration. The SnapSAN S2000 can be configured with up to 12 SATA II drives for 12 terabytes or 24 terabytes of storage capacity; or 12 high performance SAS drives for 3.6 terabytes or 7.2 terabytes of storage capacity. SATA and SAS drives can also be intermixed in the S2000 for increased flexibility. The SnapSAN S2000 can be scaled to 192 terabytes by adding up to 7 Snap Server E2000 Expansion enclosures.

Snap Server Network-Attached Storage (NAS) Solutions

Snap Server family is an ideal platform for primary or nearline storage. With a range of appliances, from compact, portable desktop systems to rackmount systems, the Snap Server line delivers proven stability and integration with Windows, UNIX/Linux, and Macintosh environments. For virtual servers and database applications, the Snap Server family supports iSCSI block-level access with Microsoft VSS, and VDS integration to simplify Windows management. For data protection, the Snap Server family offers replication, snapshots for point-in-time recovery and the ability to back up to disk, VTL, or tape.

Rackmount Systems: The Snap Server 410, 620, and N2000 are rack-mountable systems intended for the server room or data center. The Snap Server 410 is a 1U server configured with 4 SATA II drives for 2 terabytes, 4 terabytes or 8 terabytes of storage capacity and supports RAID levels 0, 1, 5, 6, and 10; the Snap Server 620 is a 1U server configured with either 4 SATA II drives for 2 terabytes, 4 terabytes or 8 terabytes of storage capacity or 4 high performance SAS drives for 1.2 terabytes of storage capacity. The Snap Server 620 can also be scaled to 176 terabytes by adding up to 7 Snap Server S50 Expansion enclosures and supports RAID levels 0, 1, 5, 6, and 10; and the Snap Server N2000 is a 2U server that can be configured with up to 12 SATAII drives for 12 terabytes or 24 terabytes of storage capacity or 12 high performance SAS drives for 3.6 terabytes or 7.2 terabytes of storage capacity. The Snap Server N2000 can be scaled to 144 terabytes by adding up to 5 Snap Server E2000 expansion enclosures and supports RAID levels 0, 1, 5, 6, and 10.

Desktop Systems: The Snap Server 110 and 210 are designed for easy set up and maintenance and are ideal solutions for branch and remote offices or departments that do not have dedicated IT personnel. These systems provide network accessible storage and cost effective data protection in a compact, portable, desktop storage unit. The Snap Server 110 is configured with a single SATA II drive for either 500 gigabytes or 2 terabytes of storage capacity. The Snap Server 210 is configured with 2 SATA II drives for a total of 1 terabyte, 2 terabytes or 4 terabytes of storage capacity and supports RAID levels 0 and 1.

REO Virtual Tape Library (VTL) Solutions

The company's REO SERIES VTL solutions provide disk-based backup and recovery. Systems can be configured as virtual tape libraries, standalone virtual tape drives, and/or disk volumes, or LUNs. Powered by its REO Protection OS software, its REO systems include a feature known as dynamic virtu
