Abstracts

Overseas Shipholding Group Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Overseas Shipholding Group Inc. and its competitors. This provides our Clients with a clear understanding of Overseas Shipholding Group Inc. position in the [Energy](#) Industry.

The report contains detailed information about Overseas Shipholding Group Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Overseas Shipholding Group Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Overseas Shipholding Group Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Overseas Shipholding Group Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Overseas Shipholding Group Inc. business.

About Overseas Shipholding Group Inc.

Overseas Shipholding Group, Inc., a bulk shipping company, engages primarily in the ocean transportation of crude oil and petroleum products. As of December 31, 2009, the company owned or operated a modern fleet of 106 vessels (aggregating 10.9 million deadweight tons and 864,800 cubic meters) of which 84 vessels operated in the international market and 22 operated in the U.S. Flag market. The company's newbuilding program of owned and chartered-in vessels totaled 23 international and U.S. Flag vessels.

The company's vessel operations are organized into strategic business units and focused on market segments: crude oil, refined petroleum products, U.S. Flag, and gas. The International Flag Crude Tanker unit manages International Flag ULCC, VLCC, Suezmax, Aframax, Panamax, and Lightering tankers; the International Flag Product Carrier unit principally manages LR1 and MR product carriers; and the U.S. Flag unit manages most U.S. Flag vessels. Through joint venture partnerships, the company operates four LNG carriers and, beginning in 2010, two Floating Storage and Offloading (FSO) service vessels.

In 2009, the company entered into an agreement with American Shipping Company ASA (AMSC) and related entities and among other matters agreed to purchase two U.S.

Flag Handysize Product Carriers, the Overseas Cascade and Overseas Chinook.

International Fleet Operations

Crude Oil Tankers

The company's crude oil fleet comprises crude oil vessel classes and includes a fleet of seven International Flag lightering vessels that trade primarily in the U.S. Gulf of Mexico.

Tankers International: As of December 31, 2009, Tankers International had six participants and managed a fleet of 40 VLCCs and ULCCs that trade throughout the world, including 15 (14.0 weighted by ownership) of the company's ULCC and VLCC owned and chartered-in vessels. Tankers International performs the commercial management of its participants' vessels.

Suezmax International: As of December 31, 2009, the pool had four participants and provides the commercial management of a fleet that primarily trades in the Atlantic Basin. As of December 31, 2009, Suezmax International managed a fleet of five modern Suezmaxes, including both of the company's chartered-in vessels.

Aframax International: As of December 31, 2009, there were 11 participants in Aframax International and the pool commercially managed 42 vessels, including 13 (11.4 weighted by ownership) of the company owned and chartered-in vessels. Aframax International's vessels generally trade in the Atlantic Basin, North Sea, and the Mediterranean.

Panamax International: Panamax International provides the Commercial Management of the Panamax fleets of its three participants. As of December 31, 2009, Panamax International managed a fleet of 21 Panamaxes, which included five of the company's crude Panamaxes and three of its Panamax Product Carriers (LR1s), as well as three crude Panamaxes that are time chartered to one of the pool partners.

Gas

Gas constitutes one of the company's business units, which transports liquefied natural gas. The joint venture between the company and Qatar gas Transport Company Limited (Nakilat) in which OSG has a 49.9% interest, owns four 216,000 cbm LNG Carriers. The company provides technical management for these vessels.

U.S. Flag Fleet Operations

The company operates as a commercial owner and operator of Jones Act vessels in the United States.

Customers

The company's customers include independent and state-owned oil companies, oil traders, and the U.S. and international government entities.

COMPETITION

Tankers International: Tankers International's main competitors include Frontline Ltd., BW Group Ltd., Mitsui OSK Lines, Ltd., Nippon Yusen Kabushiki Kaisha, and Agelef Shipping Co. (London) Ltd.

Suezmax International: The main competitors of the Suezmax International pool include the Gemini Tankers pool, the Stena Sonagol pool, and the Blue Fin Tankers pool. Other competitors include non-pool owners, such as Dynacom Tankers Management, Ltd., Thenamaris Ships Management, Inc., Delta Tankers Ltd., and OAO Sovcomflot.

Aframax International: Aframax International's main competitors include Teekay Corporation, General Maritime Corporation, and Sigma Tankers Inc.

Panamax: Main competitors include Star Tankers Inc., A/S Dampskibsselskabet Torm, and Scorpio Pool Management S.A.M.

In the Handysize Product Carrier segment, the company owns or charters-in a fleet of 26 vessels that competes with Glencore International AG, Handytankers K/S, Vitol Group, Trafigura, A/S Dampskibsselskabet Torm, Navig8, Dorado Tankers Pool Inc., and OAO Sovcomflot.

History

Overseas Shipholding Group, Inc. was founded in 1948.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
