The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Oxford Investments Holdings Inc. business.

### **About Oxford Investments Holdings Inc.**

Oxford Investments Holdings Inc. engages in the business of direct-banking and payment-card solutions.

#### **Products**

The company offers 'FocusKard' suit of products that consists of an online-access account represented by a stored-value card. Stored-value cards are a substitute for cash, gift certificates, and check payments. Monetary value is added to the stored-value account before the card is used, with the value either being funded by the cardholder directly, or by the card program operator in commercial applications. Its stored-value card's applications include payroll products, gift-card products, travel products, insurance products, membership products, student products, and incentive/promotional products.

#### **Operations**

Arden Trading Company Ltd.

The company holds a 50% interest in Arden Trading Company Ltd. of China (Arden)

through its partnership with the Ko Ho Management Co. Ltd. of Hong Kong (Ko Ho Group). Arden involves in the operation of customer loyalty program redemption. It provides services to China Construction Bank for the Province of Guangdong, processing bonus point redemptions for the bank. Its services also include gift sourcing, catalogue production, logistics, and call center customer support. The company's clientele include telecommunication operators, such as China Telecommunications; insurance companies; and commercial banks, such as China Construction Bank. Arden provides bonus point fulfillment services to the China Construction Bank for the Province of Guangdong. It is responsible for bonus points management services, receiving orders, acquiring products to fulfill the orders, and shipping the product to the bank's customers.

### Hongxin Insurance Agency

The company holds a 50% interest in Hongxin Insurance Agency of China (Hongxin) through its partnership with the Ko Ho Group. Hongxin is an insurance agency selling insurance policies and financial instruments for major insurance companies in China. It provides corporate and individual insurance products, risk management, and consultation services.

Hongxin serves the market of the Province of Guangdong in China. It provides opportunities for investment, such as mutual funds and other financial instruments. Hongxin is the insurance agent for the cardholders of China Construction Bank (Guangdong Branch) 'Automotive Card'. The 'Automotive Card' is a roadside assistance and automotive services program, and it offers a discount on automotive insurance purchased through Hongxin. Hongxin also has an agreement with the mail-ordering company in China, which has approximately four million clients, allowing Hongxin to market its products and services to those clients.

### Joint Ventures

The company entered into a joint venture partnership with Concept Payments Corp whereby it obtained a 50% ownership interest in Serenity Investments Holdings Corp., a British Virgin Islands corporation, to obtain a payment processing engine and an e-wallet platform that would provide the technology for the backbone to the company's FocusKard suite of payment solutions.

### History

The company was founded in 2000. It was formerly known as International E Gaming Developers Ltd. and changed its name to Oxford Software Developers Inc. in 2001. Further, it changed its name to Oxford Investments Holdings Inc. in 2003.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
