# **Abstracts**

Pampa Energia SA Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Pampa Energia SA and its competitors. This provides our Clients with a clear understanding of Pampa Energia SA position in the <u>Utilities</u> Industry.

The report contains detailed information about Pampa Energia SA that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Pampa Energia SA. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Pampa Energia SA financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Pampa Energia SA competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Pampa Energia SA business.

## About Pampa Energia SA

Pampa Energia S.A., through its subsidiaries, engages in the generation, transmission, and distribution of electricity in Argentina.

#### Generation

The company's generation assets include Hidroelectrica Nihuiles (HINISA) and Hidroelectrica Diamante (HIDISA), 2 hydroelectric power generation systems with an aggregate installed capacity of 653.6 MW located in the Province of Mendoza; Guemes, a thermal generation plant with an installed capacity of 361 MW located in the Province of Salta; Loma de la Lata, a thermal generation plant with an installed capacity of 369 MW located in the Province of Neuquen; and Piedra Buena, a thermal generation plant with an installed capacity of 620 MW located in Ingeniero White, Bahia Blanca, in the Province of Buenos Aires.

### Transmission

The company participates in the electricity transmission business through its cocontrolling interest in Compania de Transporte de Energía Electrica en Alta Tension S.A (Transener), which owns, operates and maintains the high voltage electricity

transmission system in Argentina, and, through its subsidiary Transba S.A. (Transba), which owns and operates a separate high voltage transmission system located within the Province of Buenos Aires.

#### Distribution

The company engages in the electricity distribution business through its subsidiary Empresa Distribuidora y Comercializadora Norte S.A. (Edenor), which holds a concession to distribute electricity on an exclusive basis to the northwestern zone of the greater Buenos Aires metropolitan area and the northern portion of the City of Buenos Aires, comprising an area of 4,637 square kilometers.

In addition to its principal electricity assets, the company holds other non-core assets and investments, including a 4.47% minority stake in San Antonio Internacional Ltd., a company that indirectly owns certain on-shore drilling and well treatment businesses, and a 13.3% minority stake in Cerámica San Lorenzo S.A., an argentine producer of ceramic floor coverings and tiles. It also holds certain real estate assets, including 13 lots at Estancia Benquerencia (Benquerencia Exclusive Club), a real estate development located approximately 80 miles from the City of Buenos Aires.

#### Significant Events

In December 2010, Pampa Energia SA and Apache Corp. have signed a gas acquisition agreement first announced in August. Pampa would acquire 595,000m3/d of natural gas from Apache to supply its 540MW Loma de La Lat thermo plant.

## History

The company was founded in 1945. It was formerly known as Pampa Holding S.A. and changed its name to Pampa Energia SA in 2008.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

## RESEARCH METHODOLOGY

#### **DISCLAIMER**

### 1. PAMPA ENERGIA SA COMPANY PROFILE

- 1.1. Key facts
- 1.2. Financial Performance
- 1.3. Key Executives
- 1.4. Ownership and Major Holders
- 1.5. Company History

## 2. PAMPA ENERGIA SA BUSINESS OVERVIEW

- 2.1. Business Description
- 2.2. Major Products and Services
- 2.3. Markets and Sales Activities
- 2.4. Locations, Subsidiaries, Operating Units

## 3. PAMPA ENERGIA SA SWOT ANALYSIS

- 3.1. Overview
- 3.2. Strengths
- 3.3. Weaknesses
- 3.4. Opportunities
- 3.5. Threats

## 4. PAMPA ENERGIA SA FINANCIAL ANALYSIS

- 4.1. Financial Statements
- 4.1.1. Income Statement
- 4.1.2. Balance Sheet
- 4.1.3. Cash Flow
- 4.2. Financial Ratios
- 4.2.1. Profitability
- 4.2.2. Margin Analysis

- 4.2.3. Asset Turnover
- 4.2.4. Credit Ratios
- 4.2.5. Long-Term Solvency
- 4.2.6. Growth Over Prior Year
- 4.2.7. Financial Ratios Charts
- 4.3. Stock Market Snapshot

## 5. PAMPA ENERGIA SA COMPETITORS AND INDUSTRY ANALYSIS

- 5.1. Pampa Energia SA Direct Competitors
- 5.2. Comparison of Pampa Energia SA and Direct Competitors Financial Ratios
- 5.3. Comparison of Pampa Energia SA and Direct Competitors Stock Charts
- 5.4. Pampa Energia SA Industry Analysis
- 5.4.1. Utilities Industry Snapshot
  - 5.4.2. Pampa Energia SA Industry Position Analysis

#### 6. PAMPA ENERGIA SA NEWS & EVENTS

- 6.1. News & PR Activity Analysis
- 6.2. IR Corporate News
- 6.3. Marketing News
- 6.4. Corporate Events

#### 7. PAMPA ENERGIA SA EXPERTS REVIEW1

- 7.1. Experts Consensus
- 7.2. Experts Revisions

## 8. PAMPA ENERGIA SA ENHANCED SWOT ANALYSIS<sup>2</sup>

# 9. ARGENTINA PESTEL ANALYSIS<sup>2</sup>

- 9.1. Political Factors
- 9.2. Economic Factors

## **ANALYSIS FEATURES**

## **SWOT Analysis**

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

## **Enhanced SWOT Analysis**

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

## **PESTEL Analysis**

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

# Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

## IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

# Reputation

# Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?
Rare?
Costly to imitate?
Organized properly?
