About Papa John's International Inc.

Papa John's International, Inc. operates and franchises pizza delivery and carryout restaurants under the trademark 'Papa John's' in the United States and internationally. It also operates dine-in and restaurant-based delivery restaurants in certain international markets.

As of December 27, 2009, there were 3,469 Papa John's restaurants in operation, consisting of 614 Company-owned and 2,855 franchised restaurants operating domestically in all 50 states, the District of Columbia and Puerto Rico and in 29 countries.

The company operates 127 Company-owned restaurants under two joint venture arrangements. Under the first arrangement, it owns 70% of an entity operating 52 Papa John's restaurants located in Virginia and Maryland. Under the second arrangement, the company owns 51% of an entity operating 75 Papa John's restaurants located in Texas.

Segments

The company operates through five segments: Domestic Restaurants, Domestic Commissaries, Domestic Franchising, International Operations, and Variable Interest Entities (VIEs).

The Domestic Restaurant segment consists of the operations of all domestic company-owned restaurants and engages in the retail sales of pizza and side items, such as breadsticks, cheesesticks, chicken strips, chicken wings, dessert pizza, and soft drinks to the general public.

The Domestic Commissary segment consists of the operations of regional dough production and product distribution centers and engages in the sale and distribution of food and paper products to domestic company-owned and franchised restaurants.

The Domestic Franchising segment consists of franchise sales and support activities and engages in the sales of franchise and development rights and collection of royalties from its domestic franchisees.

The International Operations segment principally consists of company-owned restaurants and distribution sales to franchised Papa John's restaurants located in the United Kingdom, Mexico, and China and franchise sales and support activities, which engages in the sales of franchise and development rights and the collection of royalties from international franchisees.

VIE engages in the sale, principally to company-owned and franchised restaurants, of printing and promotional items, risk management services, and information systems and related services used in restaurant operations and certain partnership development activities.

Competition

The company's primary competitors are the national pizza chains, including Pizza Hut, Domino's, and Little Caesars.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
