Abstracts

Parexel International Corp. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Parexel International Corp. and its competitors. This provides our Clients with a clear understanding of Parexel International Corp. position in the [Pharmaceuticals and Biotechnology](#) Industry.

The report contains detailed information about Parexel International Corp. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Parexel International Corp.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Parexel International Corp. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios

pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Parexel International Corp. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Parexel International Corp. business.

About Parexel International Corp.

Parexel International Corporation, a biopharmaceutical services company, provides clinical research, medical communications services, consulting, and technology products and services to the worldwide pharmaceutical, biotechnology, and medical device industries.

The company's product and service offerings include clinical trials management, data management, biostatistical analysis, medical communications services, clinical pharmacology, patient recruitment, regulatory and product development consulting, health policy and reimbursement, performance improvement, industry training and publishing, medical imaging services, ClinPhone randomization and trial supply management (RTSM), electronic data capture (EDC), clinical trial management systems (CTMS), Web-based portals, systems integration, patient diary applications, and other drug development services.

The company has operations in major health care markets, including the United States, Canada, China, Taiwan, Japan, Singapore, Korea, Malaysia, the Philippines, Thailand, Indonesia, Germany, the United Kingdom (U.K.), France, Italy, Spain, Sweden, Australia, South Africa, Argentina, Brazil, Peru, Chile, Mexico, Israel, Norway, Belgium,

The Netherlands, Denmark, Finland, India, Russia, Poland, the Czech Republic, Lithuania, Hungary, Croatia, Serbia, Romania, and Ukraine.

Segments

The company's segments include Clinical Research Services (CRS); PAREXEL Consulting and Medical Communications Services (PCMS); and Perceptive Informatics, Inc. (Perceptive).

CLINICAL RESEARCH SERVICES (CRS)

The CRS Segment provides clinical trials management and biostatistics, data management, and clinical pharmacology, as well as related medical advisory and investigator site services.

The CRS segment offers services for the design, initiation, and management of clinical trials programs, a critical element in obtaining regulatory approval for biopharmaceutical products. It has performed services in connection with trials in various therapeutic areas, including oncology, cardiology, infectious diseases, neurology, allergy/immunology, endocrinology/metabolism, gastroenterology, obstetrics/gynecology, orthopedics, pediatrics, psychiatry, and transplantation. The company's multi-disciplinary clinical trials group examines a product's existing preclinical and clinical data to design clinical trials to provide evidence of the product's safety and efficacy.

The CRS business segment manages various aspects of clinical trials, including study and protocol design; case report form (CRF) design, a paper or electronic questionnaire used in clinical research; site and investigator recruitment; patient enrollment; study monitoring and data collection; data analysis; report writing; and medical services. CRS clinical trial management services involve various phases of clinical trials, including Phases I, II, III, and IV.

Early Phase: The Early Phase group of CRS encompasses the early stages of clinical testing, when a product is evaluated to assess the potential safety and efficacy of the product. These tests vary from 'first-in-man' to 'dose-ranging' to 'proof of concept' studies in Phases I and IIa of development. The Early Phase group of CRS offers clients a service where studies are performed in healthy volunteers, as well as in patients of various disease populations. The support services include project and program management, drug development consulting, medical writing, handling of

investigational products, data management, biostatistical, and bioanalytical services. The company's international network of early phase operations includes operations in Berlin, Germany; Baltimore, Maryland (the U.S.); Glendale, Culver City and Paramount, California (the U.S.); Bloemfontein, George and Port Elizabeth, South Africa; and Harrow, the U.K.

Phase II-III/PACE – The Phase II-III/Peri Approval Clinical Excellence (PACE) group of CRS encompasses the later stages of clinical testing. Through this CRS unit, the company assists clients with various aspects of clinical trials. CRS performs both full-service and single- or multi-service trials.

Study Protocol Design: The protocol defines th

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
