The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of People's Liberation, Inc. business.

About People's Liberation, Inc.

People's Liberation, Inc. designs, markets, and sells casual apparel under the People's Liberation, William Rast, and J. Lindeberg brand names. Its clothing consists of premium denim, knits, wovens, and golf wear and outerwear for men and women. The company also markets and sells J. Lindeberg branded apparel in the United States.

In the United States, the company distributes merchandise to specialty stores, boutiques and department stores, such as Nordstrom, Bloomingdales, Saks Fifth Avenue, and Neiman Marcus, and online at various Web sites, including williamrast.com, jlindebergusa.com, and Zappos.com. The company also markets and sells its J. Lindeberg branded collection and golf apparel through its retail stores in New York City and Los Angeles, and J. Lindeberg golf wear to green grass golf stores and boutiques in the United States. William Rast products are also sold in its three retail stores located in Los Angeles, San Jose, and Cabazon, California. Internationally, in select countries, the company sells William Rast branded apparel products directly and through distributors to better department stores and boutiques worldwide.

Products

The company's principal products are fashion denim, knits, wovens and casual wear

that are designed, manufactured, marketed, and distributed under the 'People's Liberation' and 'William Rast' labels. Its People's Liberation brand primarily includes denim for men and women, and William Rast brand is a collection of denim, knits, wovens and outerwear for both men and women. Its denim is made from fabrics milled primarily in the United States, Japan and Italy and processed with various treatments, washes and finishes, including light, medium, dark, and destroyed washes, some of which include studs, stones, and embroidered pockets as embellishments. The company introduces new versions of major styles each season in different colors, washes and finishes. Its knits and woven products consist of men's and women's tops and bottoms. The company sells knit and woven products which consist of cotton, velour, terry loop, fleece and nylon fabrications. Similar to denim products, the company introduces new versions, bodies, styles, colors and graphics of knit and woven products each season.

The company's William Rast lifestyle collection is being developed and designed in collaboration with Paris68, the New York-based independent design consultancy firm of Johan and Marcella Lindeberg.

Sales and Marketing

The company sells products through its own sales force based in Los Angeles, New York, Atlanta and Dallas. Additionally, it operates showrooms in Los Angeles, New York and Atlanta. The company ships products to and invoices its United States customers directly from warehouse facilities located in or around Los Angeles, California.

International Sales and Distribution: The company's William Rast branded apparel products are sold internationally in select countries directly and through distributors to better department stores and boutiques.

Suppliers

The company purchases its J. Lindeberg branded apparel products from J. Lindeberg AB, the beneficial owner of 50% of J. Lindeberg USA, LLC.

Customers

The company's customers include Nordstrom, Bloomingdales, Saks Fifth Avenue, and Neiman Marcus. The company also markets and sells J. Lindeberg branded collection and golf apparel through retail store in New York City and J. Lindeberg golf wear to

green grass golf stores and boutiques in the United States. Internationally, in select countries, the company sells William Rast branded apparel products directly and through distributors to better department stores and boutiques throughout the world.

Dispositions

In 2009, the company sold its People's Liberation branded apparel and apparel accessories to Charlotte Russe in North America and Central America and provided Charlotte Russe with marketing and branding support for People's Liberation branded apparel.

Competition

The company's competitors in the denim and knit markets include brands, such as True Religion, Seven For All Mankind, Diesel, Guess, J Brand, and Joe's Jeans.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
