The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Pinnacle Financial Partners Inc. business.

About Pinnacle Financial Partners Inc.

Pinnacle Financial Partners, Inc. operates as the holding company for Pinnacle National Bank, which provides commercial banking services to individuals, small-to medium-sized businesses, and professional entities in Tennessee. It also offers products and services, such as investments and treasury management. As of December 31, 2009, it provided its services through 34 banking locations. Its primary markets are Nashville and Knoxville areas in Tennessee.

Lending Services

The company offers a range of lending products, including commercial, real estate, and consumer loans.

The company's commercial clients borrow for various purposes. The terms of these loans would vary by purpose and by type of any underlying collateral and include equipment loans and working capital loans. Commercial loans may be unsecured or secured by accounts receivable or by other business assets. It also makes various commercial real estate loans, residential real estate loans, and construction and development loans.

The company also makes various loans to individuals for personal, family, investment and household purposes, including secured and unsecured installment and term loans, residential first mortgage loans, home equity loans, and home equity lines of credit.

Investment Securities

In addition to loans, the company has investments primarily in obligations of the United States government, obligations guaranteed as to principal and interest by the United States government and other securities.

Deposit Services

The company's core deposits include savings, checking, interest-bearing checking, money market, and certificate of deposit accounts. Its non-core deposit sources primarily include brokered certificates of deposits and public funds. It also offers its targeted commercial clients remote deposit services, which allow electronic deposits to be made from the client's place of business.

Investment, Trust and Insurance Services

The company contracts with Raymond James Financial Service, Inc. (RJFS), a registered broker-dealer and investment adviser, to offer and sell various securities and other financial products to the public from its locations through its employees that are also RJFS employees. RJFS is a subsidiary of Raymond James Financial, Inc.

The company's investment products include mutual funds; variable annuities; money market instruments; treasury securities; bonds; fixed annuities; stocks; financial planning; asset management accounts; and listed options.

The company also maintains a trust department, which provides fiduciary and investment management services for individual and institutional clients. Account types include personal trust, endowments, foundations, individual retirement accounts, pensions and custody. It has initiated an institutional trust business providing collective trust fund fiduciary services. It also has established Pinnacle Advisory Services, Inc., a registered investment advisor, to provide investment advisory services to its clients. Additionally, Miller and Loughry Insurance Services, Inc., a wholly-owned subsidiary, provides insurance products, particularly in the property and casualty area, to its clients.

Other Banking Services

The company also offers an array of convenience-centered products and services, including 24 hour telephone and Internet banking, debit cards, direct deposit and cash management services for small- to medium-sized businesses. Additionally, it is associated with a nationwide network of automated teller machines of other financial institutions that its clients are able to use throughout Tennessee and other regions.

History

Pinnacle Financial Partners, Inc. was founded in 2000.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
