## **Abstracts**

Pinnacle Gas Resources, Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Pinnacle Gas Resources, Inc. and its competitors. This provides our Clients with a clear understanding of Pinnacle Gas Resources, Inc. position in the Industry.

The report contains detailed information about Pinnacle Gas Resources, Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Pinnacle Gas Resources, Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Pinnacle Gas Resources, Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Pinnacle Gas Resources, Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Pinnacle Gas Resources, Inc. business.

### **About Pinnacle Gas Resources, Inc.**

Pinnacle Gas Resources, Inc., an independent energy company, engages in the acquisition, exploration, and development of domestic onshore natural gas reserves. The company primarily focuses on the development of coalbed methane (CBM) properties located in the Rocky Mountain region.

As of December 31, 2009, the company owned natural gas and oil leasehold interests in approximately 424,000 gross (308,000 net) acres; had estimated net proved reserves of 15.0 Bcf; and owned interests in 571 gross (319 net) producing wells.

#### **Powder River Basin and Green River Basin CBM Projects**

As of December 31, 2009, the company completed 777 gross (435 net) of the 818 gross (469 net) CBM wells that were drilled in the Powder River and Green River Basins.

#### **Powder River Basin**

The company's Powder River Basin properties are located in Wyoming and Montana.

Wyoming: The company's principal Wyoming properties in the Powder River Basin are

located in two project areas: Recluse and Cabin Creek. As of December 31, 2009, the company held approximately 96,000 gross (59,000 net) acres in the Powder River Basin in Wyoming for prospective CBM development. The company also had 257 approved drilling permits for its Powder River Basin properties in Wyoming.

Montana: The company's Montana properties are located in four project areas: Kirby, Deer Creek, Bear Creek, and Bradshaw. As of December 31, 2009, the company held approximately 295,000 gross (217,000 net) acres in Montana for prospective CBM development and operated this acreage. As of December 31, 2009, the company drilled 1 gross (1 net) well in the Kirby area; and had 32 approved drilling permits for its Montana properties.

### Green River Basin

The company's Green River Basin properties are located in the northeast area of Sweetwater County, Wyoming. As of December 31, 2009, its properties in the Green River Basin consisted of approximately 33,000 gross (32,000 net) undeveloped acres for prospective CBM development in the Fort Union Big Red Coal formation. As of December 31, 2009, the company had 14 approved drilling permits for its Green River Basin properties.

### Customers

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

### Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

### **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
