Abstracts

Planar Systems Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Planar Systems Inc. and its competitors. This provides our Clients with a clear understanding of Planar Systems Inc. position in the [Computers and Electronic Equipment](#) Industry.

The report contains detailed information about Planar Systems Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Planar Systems Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Planar Systems Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Planar Systems Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Planar Systems Inc. business.

About Planar Systems Inc.

Planar Systems, Inc. provides specialty display solutions for customers in industrial, command and control, specialty home theater, and commercial markets. The company's products include display components, completed displays, display systems, and software based on various flat panel and projection technologies.

Markets

The company delivers products for various uses and categorizes the markets it serves as follows: Custom and Embedded, Video Wall, Information Technology, and High-end Home.

Custom and Embedded

The company utilizes its historical core competency in Electroluminescent (EL) technologies and employs these technologies to focus on providing customized, embedded, and ruggedized displays to Original Equipment Manufacturers (OEMs) and other system suppliers. Key technologies used in products sold to this market also include customized Active-Matrix Liquid Crystal Display (AMLCD) panels. These technologies are used in various applications and industries, including instrumentation,

medical equipment, vehicle dashboards, indoor and outdoor digital signage, and military applications.

Video Wall

The company serves the video wall display market by offering high-resolution LCD video walls and rear-projection cube video walls for use in large venue digital signage, as well as various control room installations. It has marketed these products under the Clarity brand. Digital signage video wall installations are used in a growing list of retail, airport, sports arena, and other locations while control room installations are typically found in the security, governmental, telecom, energy, industrial, broadcast, and transportation sectors.

Information Technology (IT)

The company capitalizes on its supply chain, logistics, and distribution relationships to sell various primarily LCD based displays to the IT market. These strong relationships give it the ability to drive revenues in various product categories, including desktop monitors, touch displays, widescreen monitors, and front-projection equipment through its network of IT resellers.

High-end Home

The company serves the high-end home market with its high-performance home theater front-projection systems, video processing equipment, large-format thin displays, and accessories. It has sold these products under the Runco brand. Its Runco products are primarily sold to its network of custom home installation dealers in the United States.

Sales

The company operates sales offices in North America, Europe, and Asia.

Customers

The company's customer includes CDW.

Competition

In display systems, including AMLCD components sourced from manufacturers, the

company's specialty display products compete against those of NEC, Mitsubishi, Viewsonic, and Dell. Its competitors for the Video Wall market include Barco, Mitsubishi Electric, Eyevis, and Christie Digital Systems, Inc. Its High-end Home products primarily compete against those of SIM2, Marantz, Dreamvision, Digital Projection International, and Panasonic Premiere.

History

Planar Systems, Inc. was founded in 1983.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
