The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Prism Medical Ltd. business.

### **About Prism Medical Ltd.**

Prism Equities, Inc. engages in design, manufacture, and sales of products that safely and efficiently allow the mobility impaired to be moved, handled and transferred from one position to another. The Company operates through its subsidiaries Waverley Glen (WG) and Westholme (WH).

#### **Waverley Glen**

WG assembles a line of ceiling lifts in its Concord facility. The company has four different ceiling lift models which it sells together with ceiling track and related accessories and slings to homecare dealers and directly to continuing care and acute care institutions in Canada, US, and to its sister company WH based in Elland, UK.

#### **Westholme**

WH provides a complete range of products and related home adaption and installation services directly to disabled people in their homes and institutions in the UK and Ireland, and to dealers in Europe, Scotland and Southwest UK. Its product line includes ceiling lifts, track and related accessories, floor lifts, shower chairs, bathing and shower equipment and repositioning and transfer aids.

WH manufactures a range of slings used in the lifting operations. WH provides caregivers and users free training in moving and handling techniques, injury prevention and the efficient use of the equipment. As well it provides estimates of installation cost and installation services to all users.

### Manufacturing Products

WG designs, assembles and markets ceiling lifts, manufactures slings and distributes a variety of related products including ceiling track and accessories, repositioning aids, floor lifts and wheelchair ramps.

The Company's products include Track, Slings, Transactive Lifts, Transactive Plus Lifts, Transportable Lift and Free-Standing Gantry.

### Distributed Products

WG distributes floor lifts, ceiling lifts, track and related accessories, repositioning aids and ramps in Canada and the US.

### Marketing

The Company markets its products in North America and United Kingdom.

### History

Prism Equities, Inc. was incorporated under the Business Corporations Act (Ontario) in 1996 as Prism Equities Inc. and changed its name to Prism Medical Ltd. in June 2004.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
