The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Prosperity Bancshares Inc. business.

About Prosperity Bancshares Inc.

Prosperity Bancshares, Inc. operates as the financial holding company for Prosperity Bank. The company provides financial products and services to small and medium-sized businesses and consumers.

As of December 31, 2009, the company operated 158 full-service banking locations; with 51 in the Houston area, 27 in the South Texas area, including Corpus Christi and Victoria, 27 in the Central Texas area, including Austin and San Antonio, 20 in East Texas, 9 in Bryan/College Station and 24 in the Dallas/Fort Worth, Texas area. The company's market consists of the communities served by its banking centers.

Banking Activities

The company offers various traditional loan and deposit products. It offers commercial mortgage and 1-4 family residential loans. The company also offers commercial loans, loans for automobiles and other consumer durables, home equity loans, debit cards, Internet banking and other cash management services and automated telephone banking.

The company's loan products include term loans, lines of credit and loans for working

capital, business expansion and the purchase of equipment and machinery, interim construction loans for builders and owner-occupied commercial real estate loans.

Loan Portfolio

Commercial and Industrial Loans: The company's commercial loans are made in its market areas and are underwritten on the basis of the borrower's ability to service the debt from income. Working capital loans are primarily collateralized by short-term assets whereas term loans are primarily collateralized by long-term assets.

Commercial Mortgages: The company makes commercial mortgage loans collateralized by real estate to finance the purchase of real estate.

1-4 Family Residential Loans: The company's lending activities also includes the origination of 1-4 family residential mortgage loans collateralized by owner-occupied residential properties located in its market areas. It offers various mortgage loan products.

Construction and Land Development Loans: The company makes loans to finance the construction of residential and, to a limited extent, nonresidential properties.

Agriculture Loans: The company provides agriculture loans for short-term crop production, including rice, cotton, milo and corn, farm equipment financing, and agriculture real estate financing.

Consumer Loans: Consumer loans made by the company include direct 'A'-credit automobile loans, recreational vehicle loans, boat loans, home improvement loans, home equity loans, personal loans (collateralized and uncollateralized), and deposit account collateralized loans.

Deposits

The company's deposit products include certificates of deposit, interest checking accounts, savings and money market accounts, overdraft protection, and time accounts.

Investment Portfolio

As of December 31, 2009, the company's investment portfolio included U.S. treasury securities and obligations of U.S. government agencies; states and political

subdivisions; collateralized mortgage obligations; mortgage-backed securities; qualified zone academy bond; and other securities.

History

Prosperity Bancshares, Inc. was founded in 1983.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
