## Abstracts

Provident Energy Trust Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Provident Energy Trust and its competitors. This provides our Clients with a clear understanding of Provident Energy Trust position in the [Energy](#) Industry.

The report contains detailed information about Provident Energy Trust that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Provident Energy Trust. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Provident Energy Trust financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Provident Energy Trust competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Provident Energy Trust business.

## **About Provident Energy Trust**

Provident Energy Trust (the Trust) operates as an open-end unincorporated investment trust. The Trust indirectly holds interests in petroleum and natural gas properties and the natural gas midstream, NGL processing and marketing business through Provident Energy Resources Inc. (PERI), Provident Midstream Holdings LP (PMHLP) and various other subsidiaries.

Provident Energy Resources Inc.

PERI is engaged in the acquisition, exploitation, development, and production of crude oil and natural gas in the western Canadian Sedimentary Basin. PERI directly and indirectly holds all of the Trust's crude oil and natural gas production assets.

Provident Midstream Holdings LP

PMHLP is a holding partnership which directly and indirectly holds all of the equity interests in Provident Midstream LP (PMLP) and Provident Midstream Inc. (PMI), other than the interests held by Provident Energy Ltd. (PEL) through the preferred shares PEL holds in PHC. PMHLP holds, directly and indirectly, all of the equity interests in the subsidiaries of the Trust which hold the Midstream Business.

The principal business of PEL is to manage and administer the operating activities associated with the oil and gas properties and the natural gas liquids midstream processing and marketing business. PEL has the operating areas of Northwest Alberta, Dixonville, West central Alberta and Southern Alberta, and the NGL midstream facilities in Redwater and Empress, Alberta, Sarnia, Ontario, Lynchburg, Virginia and Houston, Texas.

### The Midstream Business

The Midstream Business unit extracts, processes, stores, transports, and markets NGLs for Provident and offers these services to third party customers. The Midstream Business contains three business lines.

The Empress East business line is comprised of the following core assets:

Approximately 2.0 bcf/d of extraction capacity at Empress Alberta, 100 percent ownership of a 50,000 bpd debutanizer at Empress Alberta which removes condensate from the NGL mix for sale as a diluent to blend with heavy oil, 50 percent ownership in the 130,000 bpd Kerrobert Pipeline which transports NGL from Empress to Kerrobert, Saskatchewan, and 50 percent ownership in a 2.5 mmbbls underground storage facility near Kerrobert which facilitates injection of NGLs into the Enbridge Pipeline System.

In Sarnia, Ontario, 16.5 percent ownership of an approximately 150,000 bpd fractionator, 1.7 mmbbls of raw product storage capacity and 18.0 percent of 5.0 mmbbls of finished product storage and a rail, truck and pipeline terminalling facility. An additional 0.5 mmbbls of specification product storage is also available in the Sarnia area; a propane distribution terminal at Lynchburg, Virginia; and a rail car fleet of approximately 300 rail cars in the east under long term lease agreement.

The Empress East business line extracts NGLs from natural gas at the Empress straddle plants and sells finished products into markets in Central Canada and the Eastern United States.

The Redwater West business line is comprised of the following core assets: 100 percent ownership of the Redwater NGL Fractionation Facility, incorporating a 65,000 bpd fractionation, storage and transportation facility that includes 12 pipeline receipt and delivery points, railcar loading facilities with direct access to CN rail and indirect access to CP rail, finished product truck loading facilities, 7 million gross barrels of salt cavern

storage, and a 75,000 bpd condensate rail offloading facility with a 500 railcar marshalling and storage yard.

Approximately 7,000 bpd of leased fractionation capacity at other facilities; 43.3 percent direct ownership and 100 percent control of all products from the 38,500 bpd Younger NGL extraction plant located at Taylor in northeastern British Columbia; 100 percent ownership of the 565 kilometre proprietary Liquids Gathering System (LGS) that runs along the Alberta-British Columbia border providing access to an active basin for liquids-rich natural gas exploration and exploitation; a rail car fleet of approximately 700 rail cars in the west under long term lease agreement.

The Empress East and Redwater West business lines are supported by Provident's integrated marketing arm which has offices in Calgary, Alberta, Sarnia, Ontario, and Houston, Texas and operates under the brand name Kinetic.

The Commercial Services business line includes services such as fractionation, storage and loading and unloading at the company's Redwater facility. It also includes pipeline tariff income from Provident's ownership of the Liquids Gathering System in Northwest Alberta which flows into Pembina's pipeline from LaGlace to Redwater. The company also collects tariff income from its 50 percent ownership in the Kerrobert Pipeline which transports NGLs from Empress to Kerrobert for injection into the Enbridge pipeline for delivery to Sarnia.

## History

Provident Energy Trust was founded in 1993.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
