Such information creates your awareness about principal trends of Public Media Works Inc. business.

About Public Media Works Inc.

Public Media Works, Inc. engages in the development, production, marketing, and distribution of film, music, and television entertainment media. The company has various film and television projects which are in various stages of development.

Feature Film and Television Projects

The company's film projects include The Clown, Monsters, The Action, On The Hedge, The Circuit, 3 Day Test, and The Last Outlaw. Its television projects include Carry Your Weight, The Fastest Car in America, A Taste of History, TechStyle, 3 Day Test Reality Show, Run and Gun, and Ultimate 18. The company also has an ownership interest in various film projects, which are completed and in distribution, including Car Pool Guy, Donna on Demand, and Dead Air.

Customers: The company has entered into initial agreements with certain food service retailers to place kiosks. These initial agreements provide for it to provide kiosks for placement in certain of their restaurants on a trial basis.

Competition: The company competes with Warner Bros.; Paramount; Sony/Columbia; 20th Century Fox; Buena Vista; Universal; Summit Entertainment; Lionsgate; Fox

Searchlight; Weinstein Company; Focus Features; and Overture Films.

EntertainmentXpress, Inc

The company has a 100% interest in EntertainmentXpress, Inc., which plans to roll out a network of conveniently located, self-service, kiosks which deliver DVD movies and other content to consumers. The kiosks would provide consumers the ability to rent and purchase DVD movies, video games, and other products. The company plans to locate the kiosks in quick-serve food locations, grocery stores, and other high-traffic, public venues.

Customers: The company has an agreement Aurora Huts LLC, a Pizza Hut franchisee, which operates 155 Pizza Hut locations. Additionally, it has entered into five separate agreements with certain Popeye's restaurant franchisees, which cumulatively operate 74 of the highest volume Popeye's stores in the greater Houston Area, including Salil Keswani; Broford Inc.; Cardinal Southwest; Houston Fast Food; GRM Operations; and Continental Superior Management.

Competition: The company faces competition from various video distribution channels, other independent digital media rental service providers, and other providers of movie and video game content, from traditional stores, such as Blockbuster and Hollywood Video, to other self-service kiosks, such as RedBox, to online or postal providers, such as Netflix, to other movie distribution rental channels, such as pay-per-view, video-on-demand, online streaming, premium television, basic cable, and network and syndicated television. The company's chief competitors in the DVD kiosk-providers field are both public companies, including RedBox, owned by Coinstar, and NCR.

Significant Events

On August 18, 2010, Public Media Works Inc. and its wholly-owned subsidiary, EntertainmentXpress Inc., announced an agreement with Modular Conversions, LLC to place approximately 7,000 DVD movie and game kiosks in new convenience stores.

History

Public Media Works, Inc. was founded in 2000.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
