Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Pzena Investment Management, Inc business.

About Pzena Investment Management, Inc

Pzena Investment Management, LLC, together with its subsidiaries, operates as an investment adviser. The company manages assets in ten investment strategies across a range of market capitalizations in both U.S. and foreign capital markets.

The company, as of March 31, 2007, managed money for approximately 375 separate client relationships on behalf of institutions and high net worth individuals and acted as sub-investment adviser to 12 SEC-registered mutual funds and 8 offshore funds.

Investment Strategies

The company's investment strategies are distinguished by the market capitalization ranges from which it selects securities for their portfolios, which are referred to as each strategy's investment universe, as well as the regions in which the company invests. Its actual investments may include companies outside of the relevant market capitalization range at the time of its investment. In addition, the number of holdings found in the portfolios of each of the company's investment strategies may vary as follows:

Large Cap Value: The company screens a universe of the 500 largest U.S.-listed companies, based on market capitalization, to build a portfolio of 30 to 40 stocks.

Value Service: The company screens a universe of the 1,000 largest U.S.-listed companies, based on market capitalization, to build a portfolio of 30 to 40 stocks. The company has re-opened it on a limited basis for the investors.

Global Value: The company screens a universe of the 1,500 largest non U.S.-listed companies, based on market capitalization, and the 500 largest U.S.-listed companies, based on market capitalization, to build a portfolio of 40 to 60 stocks. This portfolio is open to new investors.

Small Cap Value: The company screens a universe of U.S.-listed companies ranked from the 1,001th to 3,000th largest, based on market capitalization, to build a portfolio of 40 to 50 stocks. The company re-opened it briefly for the new investors.

Mid Cap Value: The company screens a universe of U.S.-listed companies ranked from the 201st to 1,200th largest, based on market capitalization, to build a portfolio of 30 to 40 stocks.

All Cap Value: The company screens a universe of the 3,000 largest U.S.-listed companies, based on market capitalization, to build a portfolio of approximately 25 stocks.

International Value: The company screens a universe of the 1,500 largest non U.S.-listed companies, based on market capitalization, to build a portfolio of 30 to 50 stocks. This portfolio is open to new investors.

Diversified Value: The company screens a universe of the 400 largest U.S.-listed companies, based on market capitalization, to build a portfolio of 70 to 90 stocks. Up to 20% of the portfolio can opportunistically be invested in foreign issuers within the same market capitalization range. The company offers this product through relationship with John Hancock Advisers, serving as the sub-investment adviser to the John Hancock Classic Value Fund II.

Hedged Value: The company has entered into a joint venture, PAI Hedged Strategies, LP, to manage a hedge fund which combines the company's fundamental research with an options trading strategy.

Mega Cap Value: The company screens a universe of the 250 largest U.S.-listed companies, based on market capitalization, to build a portfolio of 30 to 40 stocks. It offers this product through relationship with John Hancock Advisers, serving as the sub-investment adviser to the John Hancock Classic Value Mega Cap Fund.

History

Pzena Investment Management, LLC was founded in 1995.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
