Quantum Fuel Systems Technologies Worldwide Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Quantum Fuel Systems Technologies Worldwide Inc. and its competitors. This provides our Clients with a clear understanding of Quantum Fuel Systems Technologies Worldwide Inc. position in the [Auto Parts Industry](#).

- The report contains detailed information about Quantum Fuel Systems Technologies Worldwide Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.
- Another part of the report is a SWOT-analysis carried out for Quantum Fuel Systems Technologies Worldwide Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.
- The Quantum Fuel Systems Technologies Worldwide Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.
- In the part that describes Quantum Fuel Systems Technologies Worldwide Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.
- Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Quantum Fuel Systems Technologies Worldwide Inc. business.

About Quantum Fuel Systems Technologies Worldwide Inc.

Quantum Fuel Systems Technologies Worldwide, Inc., an integrated alternative energy company, engages in the development and production of advanced propulsion systems and renewable energy generation

systems and services.

The company integrates advanced fuel system, electric drive, software control strategies, and propulsion control system technologies for alternative fuel vehicles, in particular, plug-in hybrid electric, hybrid electric, fuel cell, and other alternative fuel vehicles.

SEGMENTS

The company's principal business segments include Fuel Systems and Renewable Energy.

Fuel Systems

The Fuel Systems business segment provides powertrain engineering, system integration, manufacturing and assembly of packaged fuel systems and propulsion control systems for vehicles and other applications, including fuel cells, hybrids, plug-in electric hybrid, alternative fuels, and hydrogen refueling stations and systems. The company also designs, engineers, and manufactures hybrid and fuel cell vehicles.

The company's portfolio of technologies and products include hybrid electric and plug-in hybrid electric powertrain systems, advanced battery control systems, electronic vehicle control systems, and software, fuel storage and fuel delivery products and control systems for use in hybrid, fuel cell, and other alternative fuel vehicles. It also designs and manufactures computerized controls, regulators, and automatic shut-off equipment, high-pressure hydrogen, and natural gas storage tanks using composite technology and hydrogen refueling systems.

The company's hybrid drive system, which the company refers to as Q-Drive comprises a lithium-ion battery pack, an optimized generator, traction motor(s), transmission/transaxle, inverters, DC-DC converter, hybrid controller, controls strategies, and software subsystems. It also has other derivative drive systems within its family of hybrid drives that have evolved from the Q-Drive hybrid drive system, including an all-wheel-drive diesel hybrid electric powertrain that it refers to as the Q-Force.

The company supplies its hybrid electric drive systems and packaged fuel systems for alternative fuel vehicles to original equipment manufacturer (OEM) customers for use by consumers and for commercial and government fleets. It also provides its hybrid electric propulsion systems, gaseous hydrogen fuel systems, and refueling products for fuel cell applications, and compressed natural gas fuel systems to major OEMs through funded research and development contracts and on a prototype basis. The company is focusing its enabling technology marketing efforts on North America, Europe, and the Asia-Pacific.

Renewable Energy

The Renewable Energy business segment engages in the development, construction, and operation of wind and solar energy farms through its wholly-owned subsidiary, Schneider Power, Inc. (SPI). Through SPI, the company is a licensed electricity generator and wholesaler. The company owns and operates a 1.6 megawatt (MW) wind farm in Ontario, Canada. In addition, it has a portfolio of wind and solar farm projects in North America and the Caribbean with capacity of approximately 1,000 MW that are in various stages of development.

PRODUCTS

Hybrid Electric Powertrain Systems: The company's hybrid electric powertrain systems primarily comprise an advanced electric propulsion vehicle drive system that incorporates lithium-ion batteries, an optimized generator, traction motors, transmission/transaxle, inverters, DC-DC converter, hybrid controller, battery recharging through on-board optimized generator powered by an internal combustion engine or through home-based plug-in capabilities, and integrated hybrid electric control architecture. Certain subsystems of its Q-Drive have been designed to be integrated into the Fisker Karma production vehicle and can be scaled and adopted to integrate into other OEM hybrid vehicle platforms.

Lithium Ion and Advanced Battery Control Systems: The company's lithium ion and advanced battery control and software products and integrated battery packs are in the developmental stage by its battery partners. It has partnered with
