Abstracts

The Quantum Group, Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between The Quantum Group, Inc. and its competitors. This provides our Clients with a clear understanding of The Quantum Group, Inc. position in the Industry.

The report contains detailed information about The Quantum Group, Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for The Quantum Group, Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The The Quantum Group, Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes The Quantum Group, Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of The Quantum Group, Inc. business.

About The Quantum Group, Inc.

The Quantum Group, Inc., a Healthcare Services Organization (HSO), provides business process solutions to the healthcare industry.

The company's model interacts with the three sections of the healthcare industry, such as the providers (primary care physicians/specialists/ancillary facilities), hospitals, and payers. It has an enterprise platform that includes multiple applications used by provider offices or hospitals. The platform, known as PWeR (Personal Wellness electronic Record) is patient-centric and capable of receiving patient information from multiple sources. The company also provides other services and products to healthcare providers in and outside of its network. These services include medical billing and collection, purchasing, technology and insurance products.

The company is organized in three divisions: Renaissance Health Systems, Inc.; Quantum Innovations, Inc.; and Quantum Medical Support Services, Inc.

Renaissance Health Systems, Inc. (RHS) – Healthcare Provider Network

The company's subsidiary, RHS, operates its network of healthcare providers and physician groups. Its network consists of a series of countywide networks, which are

called as community health systems (CHSs). RHS has established 29 county-based CHSs in Florida. The company contracts with individual physicians and physician groups, as well as ancillary facilities, such as laboratories, pharmacies and diagnostic centers.

Quantum Innovations, Inc. (QI) – Technology Solutions

The company's subsidiary, QI, develops technology driven management support services for the healthcare industry. Electronic medical records (EMRs), personal health records (PHRs), scheduling, billing, e-prescriptions, e-labs, disease management and practice management are all integrated with the synchronization of a supply chain. PWeR is different as it integrates all applications into one complete, patient-centric, Web-based system. In December 2008, the company entered into a services agreement with International Business Machines Corporation (IBM) to provide for the Web hosting of PWeR. PWeR is marketed through QMed Solutions, Inc., a subsidiary of Quantum Medical Support Services, Inc.

Quantum Medical Support Services, Inc. (QMSS) – Support Services

QMSS provides management support services to healthcare providers that participate in the company's network, as well as to other healthcare providers, physician groups and other providers of medical services. The company's subsidiary, QMed Billing, Inc. (QMB), offers medical billing and collection services to healthcare providers and hospitals. QMB services include: electronically processing physician-prepared medical claims; electronically forwarding the claim to the appropriate payer (insurance, government, private); recording collections from all sources and preparing accounts receivable reports for the physician; preparing encounter reports, the record of each service received or performed for a patient to CMS; invoicing for patient portion of charges; collecting fees; following up on denials and re-filing of claims; interfacing with payers regarding claim issues; advising healthcare providers as to coding requirements and regulation/rate changes; providing an audit trail for physician PWeR users; EMR/Billing solution; and providing accumulation and preparation of data for CMS's Physician Quality Reporting Initiative (PQRI) and other reports to the physician.

The company offers insurance products to healthcare providers on a commission basis through The Quantum Agency, Inc. QMed Web, Inc. also provides in-house Web services for use in developing and maintaining Web sites for use by RHS, Quantum and various county medical associations.

Competitors

The company's competitors include Metropolitan Health Networks, Inc.; and Continucare Corporation.

History

The Quantum Group, Inc. was founded in 2003.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
