## Abstracts

ReGen Biologics Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between ReGen Biologics Inc. and its competitors. This provides our Clients with a clear understanding of ReGen Biologics Inc. position in the Industry.

The report contains detailed information about ReGen Biologics Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for ReGen Biologics Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The ReGen Biologics Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes ReGen Biologics Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of ReGen Biologics Inc. business.

## **About ReGen Biologics Inc.**

ReGen Biologics, Inc., an orthopedic products company, develops, manufactures, and markets tissue growth and repair products for U.S. and global markets. The company's proprietary collagen matrix technology includes applications in orthopedics, general surgery, spine, cardiovascular, and drug delivery.

### **Products**

#### **Menaflex Collagen Meniscus Implant**

The company's primary approved product using its collagen matrix technology is the Menaflex collagen meniscus implant device (also known as the CMI). ReGen developed the new brand name – Menaflex – for its collagen meniscus implant device in 2007. The CMI name was used during the research and development phase of the company's collagen meniscus implant device.

In 2008, the company received the Food and Drug Administration (FDA) clearance to market its collagen scaffold device, the Menaflex collagen meniscus implant, in the U.S. The Menaflex device was cleared through the premarket notification 510(k) process, and is indicated for use in surgical procedures for the reinforcement and repair of soft

tissue injuries of the medial meniscus. The Menaflex device is marketed for sale in the European Union (EU) and Republic of South Africa for both the medial and lateral meniscus indications.

### The SharpShooter Tissue Repair System

The company also sells the SharpShooter Tissue Repair System, or SharpShooter, a suturing device used to facilitate the surgical implantation of the Menaflex device, as well as to perform other similar arthroscopic meniscus repair procedures. The SharpShooter is sold through a worldwide distribution agreement with ConMed Linvatec (Linvatec) and outside the U.S., through ReGen AG. The SharpShooter is cleared for sale and marketed in the U.S., the EU, Canada, Australia, Chile, the Republic of South Africa, and Japan.

### U.S. CMI Clinical Trial

ReGen sponsors a pivotal multicenter clinical trial (the MCT) in the U.S.

### Customers, Sales and Marketing

The company's subsidiary, ReGen Biologics AG conducts its distribution activities outside the U.S. through local market distributors. In addition to selling through the foregoing distributors, ReGen AG also sells the company's products directly to clinics and hospitals in Austria, Switzerland, Germany, and Belgium. The company has distributorship agreements with independent orthopedic device marketing organizations for distribution of its products in Italy, Spain, Andorra, Poland, Turkey, the United Kingdom (U.K.), and the Republic of South Africa.

### Competition

The company's competitors include Orteq Bioengineering; Johnson & Johnson; Linvatec; and Smith & Nephew.

### History

ReGen Biologics, Inc. was founded in 1987.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
