This sort of company's information will assist and strengthen your

company's decision-making processes.

In the part that describes Remgro Ltd. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Remgro Ltd. business.

About Remgro Ltd.

Remgro Limited operates as an investment holding company in South Africa. The company's interests consist mainly of investments in banking and financial services, printing and packaging, motor components, glass products, medical services, mining, petroleum products, food, wine and spirits, and various other trade mark products.

Segments

The company's activities are classified into five segments: Tobacco interests, Financial services, Industrial interests, Mining interests, and Other interests.

Industrial Interests

Rainbow Chicken Limited (Rainbow): The Rainbow range of products can be classified as 'core' and 'added value'. Added-value products include Rainbow Viennas and Colonies, Rainbow Crumbed, Rainbow Grill, and Braai.

Medi-Clinic Corporation Limited (Medi-Clinic): Hirslanden is a private hospital group in Switzerland, comprising 13 private acute-care facilities. Medi-Clinic has a controlling interest (50% plus one share) in Emirates Healthcare Holdings Limited which owns and operates the Welcare Hospital and The City Hospital in Dubai. Emirates Healthcare also

has the right to develop another hospital.

Tsb Sugar Holdings (Pty) Limited (Tsb Sugar): Tsb Sugar is primarily involved in cane growing and the production, transport and marketing of refined sugar, brown sugar, animal feed, and citrus. The main area of operation is the Nkomazi region in the Mpumalanga Lowveld. Sugar products are sold under the Selati brand. The Selati brand target markets are Gauteng, Mpumalanga, North West, and Limpopo. Tsb Sugar's two sugar mills are situated near Malelane and Komatipoort. Tsb Sugar also holds a 27.4% shareholding in Royal Swaziland Sugar Corporation Limited, a company that owns and operates two sugar mills in Swaziland. In addition, the company holds a shareholding of 63.7% in Mananga Sugar Packers, a sugar packaging and marketing company based in Swaziland, which markets sugar under the First brand in Swaziland, as well as in South Africa.

Tsb Sugar's animal feed operation, Molatek, produces various feed products for the livestock market. The major raw materials (molasses and bagasse) used in the production process are by-products of sugar production.

Tsb Sugar is also invested in citrus through its 51% share in Golden Frontiers Citrus (GFC). GFC owns three citrus estates where grapefruit and oranges are cultivated, harvested and packed for the export market. The marketing of the citrus is undertaken by Komati Fruits, a partnership between various citrus producers. GFC also leases a citrus farm from, and manages banana farms on behalf of, newly established companies.

Air Products South Africa (Pty) Limited (Air Products): Air Products is the manufacturer of industrial gases in Southern Africa. Air Products also imports and distributes a variety of specialty gases and chemical products that are supplied to a range of industries, including steel, chemicals, oil refining, resource minerals, glass, pulp and paper, food packaging, as well as general manufacturing, fabrication and welding. The company operates large-scale plants in Southern Africa, providing gas supply solutions to major corporations through pipeline supply or bulk liquid gases delivered by road tankers. A variety of smaller customers are supplied with a range of products in cylinders or minitanks. These customers are assisted in the use of these products by technologies supplied by Air Products.

Kagiso Trust Investments (Pty) Limited (KTI): KTI is a black economic controlled investment holding company. Its investments are predominantly in the financial services, media and mining sectors. Its major investments are its interests in

Metropolitan Holdings Limited and Kagiso Media Limited.

PGSI Limited (PGSI): PGSI, through its wholly owned subsidiary, PG Group (Pty) Limited, is a flat-glass manufacturer in Africa. Products are supplied to the building and construction, home improvement, furniture, solar energy, new vehicle manufacturing, auto glass replacement, and rail industries. It is also an exporter of building and auto glass finished products to Africa, Europe, and the USA.

Business Partners Limited (Business Partners): Business Partners is a specialist investment group, providing risk finance, mentorship, and property management services to small and medium enterprises in South Africa.

Xiocom Wireless, Inc. (Xiocom): Xiocom is a provider of integrated wireless broadband solutions to network operators in underserved markets.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
