term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Rent-A-Center Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Rent-A-Center Inc. business.

About Rent-A-Center Inc.

Rent-A-Center, Inc., together with its subsidiaries, offers household durable products under rental purchase agreements that allow the customer to obtain ownership of the merchandise at the conclusion of an agreed upon rental period.

As of December 31, 2009, the company operated 3,007 company-owned stores nationwide and in Canada and Puerto Rico, including 39 retail installment sales stores under the names Get It Now and Home Choice and 18 rent-to-own stores located in Canada operating under the names Rent-A-Centre and Better Living.

The company's subsidiary, ColorTyme, is a national franchisor of rent-to-own stores. As of December 31, 2009, ColorTyme had 210 franchised rent-to-own stores in 33 states.

The company offers brands, such as Sony, Philips, LG, Hitachi, Toshiba and Mitsubishi home electronics, Whirlpool appliances, Toshiba, Sony, Hewlett-Packard, Dell, Acer and Compaq computers and Ashley, England, Standard, Albany, and Klaussner furniture. It also offers high levels of customer service, including repair, pickup and delivery, generally at no additional charge. The company also offers financial services products, such as short term secured and unsecured loans, debit cards, check cashing, tax preparation and money transfer services, in some of its existing stores under the

trade names RAC Financial Services and Cash AdvantEdge. As of December 31, 2009, it offered some or all of these financial services products in 353 Rent-A-Center store locations in 17 states.

Product Selection

The company's stores generally offer merchandise from four basic product categories, including consumer electronics, appliances, computers, and furniture and accessories. Consumer electronic products offered by its stores include high definition televisions, home theatre systems, video game consoles and stereos from top name-brand manufacturers, such as Sony, Nintendo, Philips, LG, Hitachi, Toshiba, and Mitsubishi. The company offers appliances manufactured by Whirlpool, including refrigerators, washing machines, dryers, freezers and ranges.

The company offers desktop and laptop computers from Toshiba, Sony, Hewlett Packard, Dell, Acer, and Compaq. It offers various furniture products, including dining room, living room and bedroom furniture featuring different styles, materials and colors. The company offers furniture made by Ashley, England and Klaussner and other brand manufacturers. Accessories include pictures, lamps and tables and are typically rented as part of a package of items, such as a room of furniture.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources Financial

Physical

Technological

Organizational

Intangible resources Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
