company's decision-making processes.

In the part that describes ResMed Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of ResMed Inc. business.

About ResMed Inc.

ResMed Inc. engages in the development, manufacture, and distribution of medical equipment for treating, diagnosing, and managing sleep-disordered breathing (SDB) and other respiratory disorders.

Products

The company's portfolio of products for the treatment of obstructive sleep apnea (OSA) and other forms of SDB includes airflow generators, diagnostic products, mask systems, headgear, and other accessories.

Air Flow Generators

The company produces Continuous Positive Airway Pressure (CPAP), Variable Positive Airway Pressure (VPAP), and AutoSet systems for the titration and treatment of SDB. The flow generator systems deliver positive airway pressure through a patient interface, either a small nasal mask, nasal pillows system, or full-face mask. The company's VPAP units deliver bilevel therapy.

Mask Systems and Diagnostic Products

The company markets sleep recorders for the diagnosis and titration of SDB in sleep clinics and hospitals. These diagnostic systems record relevant respiratory and sleep data, which can be analyzed by a sleep specialist or physician who can then modify an appropriate OSA treatment regimen for the patient.

Accessories and Other Products

To assist those professionals diagnosing or managing the treatment of patients there are data communications and control products, such as the ResLink, ResControl, ResControl II, TxControl, ResScan, and ResTraxx modules that facilitate the transfer of data and other information to and from the flow generators.

The company markets various other products and accessories, which include humidifiers, such as the HumidAire, H2i, and H3i, which connect directly with the CPAP, VPAP, and AutoSet flow generators to humidify and heat the air delivered to the patient. Other optional accessories include cold passover humidifiers, carry bags, and breathing circuits.

Sales and Marketing

The company markets its products in approximately 70 countries to sleep clinics, home healthcare dealers, and third party payers. It offers its products in North America and Latin America. It has wholly-owned subsidiaries in Austria, Finland, France, Germany, Spain, Sweden, Norway, the Netherlands, Switzerland, and the United Kingdom. It also has wholly-owned subsidiaries in Australia, Hong Kong, Japan, New Zealand, Singapore, China, and India.

Acquisitions

In October 2009, the company acquired 100% of the outstanding shares of Laboratoires Narval SA, which manufactures and distributes a mandibular repositioning device (MRD) that offers a solution to patients for snoring and OSA, especially for those with mild OSA.

Competition

The company's competitors include Philips BV; DeVilbiss, a division of Sunrise Medical Inc.; Nellcor Puritan Bennett, a division of Covidien Ltd.; and Fisher & Paykel Healthcare Corporation Limited. Its principal international competitors are Philips,

DeVilbiss, and Nellcor Puritan Bennett.

History

ResMed Inc. was founded in 1989.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
