Such information creates your awareness about principal trends of Rockelle Corp. business.

About Rockelle Corp.

Rockelle Corp. operates as a builder, owner, operator, and franchiser of various types of quick service food establishments.

STEWART'S

In March 2006, the company entered into a Multiple Unit Development Agreement with Frosted Mug Holdings, LLC which granted it certain development rights to establish, operate and/or franchise Stewart's 'Snack Bars' using the Frosted Mug Holdings proprietary restaurant service marks which include Stewart's, Stewart's Root Beer and the Original Drive In.

The company has the right to establish, operate and/or franchise these Stewart's Snack Bars in Pennsylvania, Maryland, Ohio, Florida and New York. The company operates six franchises; two in Florida, one in Maryland, one in Pennsylvania, and two in Ohio.

TACO TIME

In 2005, the company signed an agreement with Kahala Corporation for exclusive rights to Taco Time, in the greater New York City/Western Long Island metropolitan area.

Management strategies include the opening of a model Taco Time in the New York Metropolitan area, offering franchises for sale, providing construction and build out services, furnishing marketing and advertising support.

CHOCK FULL O'NUTS

In 2006, the company received approval from Massimo Zanetti Beverage, USA, the parent company of Chock Full o'Nuts, that permits it to combine other food concepts with a Chock Full o'Nuts Coffee Shop. This agreement allows Rockelle to create dual or multi branded locations featuring Chock Full o'Nuts. In February 2007, the company has received Patchogue Village's approval to open a full service Chock full o'Nuts eatery at the Patchogue, LI Railroad station.

In January 2007, the company entered into a Joint Venture Purchase Agreement with Frosted Mug Holdings, LLC (Frosted) to form a joint venture under the name FrostedRock, Inc. to engage together in the business of Stewarts Root Beer Drive in Restaurants.

Competition

STEWART'S: The company's competitors in this sector include Wal-Mart, A & W, Nathan's Famous, Cheeseburger Cheeseburger, and Johnny Rockets.

TACO TIME: The company's competitors for Taco Time franchises include Taco Bell, Baja Fresh, Chipotle, and Qdoba Restaurants.

CHOCK FULL O'NUTS: The company's competitors for Chock full o'Nuts franchises include Starbucks, Caribou Coffee, and Seattle's Best.

History

Rockelle Corp. was incorporated in 2003 under the name Serie, Inc., and changed its name to Rockelle Corp. in 2004.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
