Such information creates your awareness about principal trends of Rodman & Renshaw Capital Group, Inc. business.

About Rodman & Renshaw Capital Group, Inc.

Rodman & Renshaw Capital Group, Inc., through its principal subsidiary, Rodman & Renshaw, LLC, provides investment banking services. The company provides corporate finance, strategic advisory and related services to public and private companies across multiple sectors and regions.

The company also provides research and sales and trading services primarily to institutional investors. The company operates in the PIPE (private investment in public equity) and RD (registered direct offering) transaction markets. The sectors that the company serves include life science/healthcare, energy, metals/mining, financial services and cleantech and the regions it serves include the United States and China. The company's primary product and service offerings include financing transactions, including private placements and public offerings. It also provides research and sales and trading services to institutional investors.

Segments

The company's segments include Capital Markets and Merchant Banking.

Capital Markets

The Capital Markets segment includes the company's investment banking, sales and trading activities and research.

Investment Banking

The company's investment banking professionals focus on providing corporate finance and strategic advisory services to public and private companies. As of December 31, 2009, its investment banking group consisted of 16 senior managing directors and managing directors, who focus on originating, structuring and placing transactions.

Corporate Finance

The company focuses primarily on financing transactions. Its in-depth knowledge of a particular sector enables the company to develop financing strategies, transaction structures and financing instruments that address issuers' needs for capital and the investment community's need to balance risk and reward. The company offers its clients a range of financing alternatives, including private placements, Private Investment in Public Equity (PIPEs), registered direct offering (RDs) and underwritten public offerings.

Private Placements: These transactions involve sales of unregistered securities. In most cases the issuer is a private company, although public companies can undertake private placements as well. The securities sold may be common or preferred equity, debt, convertible debt, or derivatives, such as warrants.

Private Investment in Public Equity (PIPE): In these transactions, a publicly-traded reporting company sells unregistered securities of a class, and/or convertible or exchangeable for a class, that is already publicly traded. The issuer is obligated to register the securities within a specified period after the transaction closes.

Registered Direct Offerings: These transactions are direct placements of securities that have been registered under a 'shelf' registration statement and, therefore, are immediately tradable.

Public Offerings: These transactions involve securities that have been registered and

that are listed or traded on an exchange. The offering may constitute an 'initial public offering' by a private company or a 'follow-on offering; by an existing public company.

Strategic Advisory Services

The company also provides strategic advisory services on a range of transactions including mergers, acquisitions and asset sales. It is involved at each stage of these transactions, from initial structuring to final execution.

Sales and Trading

As of December 31, 2009, the company's sales and trading unit included five sales people, four sales traders and three traders. They focus on executing trades for institutional investor clients in the United States and Europe. As of December 31, 2009, the company was a market-maker for 320 stocks.

Merchant Banking

The Merchant Banking segment is primarily consists of operating activities related to Aceras BioMedical. The company formed Aceras BioMedical, a joint venture through which it, in partnership with Aceras Partners, LLC, make principal investments in early-stage biotechnology and life sciences companies. In conjunction with the establishment of the joint venture, the company formed a new wholly-owned subsidiary which holds a 50% stake in Aceras BioMedical and serves as the holding vehicle for all of its principal-related businesses.

Competition

The company considers its primary competitors to include Canaccord Adams, Inc.; Leerink Swann & Co.; Cowen Group, Inc.; Merriman Curhan Ford Group, Inc.; Jefferies Group, Inc.; Oppenheimer & Co. Inc.; JMP Group, Inc.; Piper Jaffray Companies; Ladenburg Thalmann Financial Services, Inc.; Roth Capital Partners, LLC; Lazard Ltd.; and Thomas Weisel Partners Group, Inc.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
