The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of RTL Group SA business.

## **About RTL Group SA**

RTL Group SA, an entertainment network, through its subsidiaries, operates television channels and radio stations in Europe. The company is a subsidiary of Bertelsmann AG.

### Segments

The company's segments include Television, Content, and Radio.

#### Television

This segment owns interests in 45 television channels in 11 European countries. It provides a range of technical services covering broadcasting and transmission, as well as production and post-production services. The company's television portfolio includes RTL Television in Germany, M6 in France, RTL 4 in the Netherlands, RTL-TVI in Belgium, and the young Five family in the United Kingdom. It also has broadcasting operations in Greece (Alpha Media Group), Hungary (RTL Klub), Russia (Ren TV), and Croatia (RTL Televizija).

#### Content

This segment produces programs for television covering a range of genres ranging from action adventure and science fiction to game shows and drama series, situation comedies, and sports. This segment is divided into two parts: production and distribution. Production comprises the production of original programmes for broadcasters; and distribution comprises the distribution of programme rights made by RTL Group or acquired/licensed from third-party producers.

## Radio

This segment owns interests in 32 radio stations in 7 countries. It operates RTL, a principal radio station in France; 2 music stations, comprising RTL 2 and Fun Radio in France; and various radio holdings in other European countries.

## Acquisitions

In December 2008, the company acquired a 66.6 per cent of Alpha Media Group, which includes the Greek national TV channel Alpha TV, the regional TV channel Kanali 9 Thessaloniki, the radio stations Alpha 98.9 and Pamos 96.5 and Plus Productions, Alpha TV's in-house production company.

In April 2008, the company acquired 100 per cent of Cyrealis Group. The main activities of Cyrealis include three editorial Web sites Clubic.com (high technology), Jeuxvideo.fr (video games), and Neteco.com (e-business) plus Achetezfacile.com, a price comparison site.

In November 2008, the company acquired the remaining 51 per cent of the share of the company, Lemonline Ltd.

In February 2008, the company acquired 100 per cent of Hugo Films SAS, a French film production company.

## Dispositions

In August 2008, the company exited from its German teleshopping activities through the sale of RTL Shop to Aurelius.

## History

RTL Group SA was founded in 1991.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
