term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Ryanair Holdings plc competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Ryanair Holdings plc business.

## **About Ryanair Holdings plc**

Ryanair Holdings plc, through its subsidiary, Ryanair Limited, operates a scheduled-passenger airline serving short-haul, point-to-point routes between Ireland, the United Kingdom, Continental Europe, and Morocco.

As of June 30, 2010, the company, with its operating fleet of 250 Boeing 737-800 'next generation' aircraft each having 189 seats, offered approximately 1,300 scheduled short-haul flights per day serving 155 airports throughout Europe and Morocco, and flying approximately 1,100 routes. Its fleet totals 232 Boeing 737-800s.

The company has bases in Dublin, London (Stansted and Luton), Glasgow (Prestwick), Brussels (Charleroi), Frankfurt (Hahn), Milan (Bergamo), Stockholm (Skvasta), Rome (Ciampino), Barcelona (Girona), Nottingham East Midlands, Liverpool, Shannon, Pisa, Cork, Marseille, Madrid, Bremen, Dusseldorf (Weeze), Bristol, Alicante, Belfast, Bournemouth, Birmingham, Kerry, Edinburgh, Reus, Alghero, Cagliari, Trapani, Bologna, Pescara, Oporto, Bari, Brindisi, Leeds Bradford, Faro, Oslo (Rygge), Malaga, Kaunas, and Malta airports.

## **Ancillary Services**

The company provides various ancillary services and engages in other activities connected with its air passenger service, including non-flight scheduled services, Internet-related services, and the in-flight sale of beverages, food, and merchandise.

The company primarily distributes accommodation services and travel insurance through its Web site. For hotel services, it has a contract with Booking.com, pursuant to which Booking.com handles all aspects of such services marketed through its Website. It also has contracts with other accommodation providers that enable it to offer camping, hostel, bed-and-breakfast, guesthouse, villa, and apartment accommodation to its customers.

The company also has a contract with the Hertz Corporation (Hertz), pursuant to which Hertz handles car rental services marketed through Ryanair's Web site or telephone reservation system. It also sells cruises online and bus and rail tickets onboard its aircraft and through its Web site. Costa Cruises handles cruise bookings made through its Web site. In 2009, the company started to offer its passengers the possibility of receiving an SMS (text message) when booking.

In 2009, the company signed a contract with Webloyalty International Ltd, which offers its customers who have a U.K., German or French billing address a retail discount and cash-back programme. In 2009, the company introduced Google AdSense to its search results pages to monetize the traffic levels that those pages generate. In 2009, the company expanded into the area of third-party Internet advertising with the introduction of third-party display advertising on the homepages in the U.K. and Ireland.

The company has entered into agreements pursuant to which it promotes Ryanair-branded credit cards issued by MBNA, GE Money, and Banco Santander onboard its aircraft and on its Internet site. The MBNA agreement relates to Irish residents only, the GE Money agreement relates to Swedish and Polish residents only, and the Banco Santander agreement relates to the U.K. residents only.

## History

Ryanair Holdings plc was founded in 1985.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
