Abstracts

Sabina Gold & Silver Corp. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Sabina Gold & Silver Corp. and its competitors. This provides our Clients with a clear understanding of Sabina Gold & Silver Corp. position in the Industry.

The report contains detailed information about Sabina Gold & Silver Corp. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Sabina Gold & Silver Corp.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Sabina Gold & Silver Corp. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Sabina Gold & Silver Corp. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Sabina Gold & Silver Corp. business.

About Sabina Gold & Silver Corp.

Sabina Gold & Silver Corp. engages in the acquisition, exploration, and development of mineral resource properties. The company primarily focuses on the Hackett River Project and the Back River Project, both located in Nunavut in the Canadian Arctic.

Hackett River Project

The Hackett River Project consists of 7 mineral leases, totalling 10,637 hectares.

Back River Projects

The Back River Project consists of 7 properties; Goose Lake, George Lake, Boot Lake, Boulder Pond, Needle Lake, Del Lake and the Bath 1 Claim, which are centred in the southwestern part of Nunavut, Canada. The Back River Project land package is comprised of 44 federal mineral leases and 37 federal mining claims covering approximately 183,239 acres.

Golden Sidewalk

The company owns 100% of 18 leasehold patent claims, known as the Golden Sidewalk

property, located in Skinner Township in the Red Lake Mining District of northwestern Ontario.

Skinner

The company owns a 100% interest in 14 claims, covering 2,900 hectares, known as the Skinner property, located in the Red Lake Gold camp adjacent to and immediately south of the Golden Sidewalk property.

Redaurum

The company owns 80% interest in Redaurum property. The Redaurum property is located within one of the major Red Lake deformation zones and in close proximity to the past producing Madsen Gold Mine.

Newman-Madsen

The company has an option and joint venture agreement with Premier on the Newman-Madsen property located in the Red Lake Mining Division of Ontario. In February 2009, the company and Premier entered into a Letter of Intent (Premier LOI) with Skybridge Development Corporation (Skybridge), which granted to Skybridge an option to acquire 100% of the East My-Ritt property portion of the Newman-Madsen property.

Del Norte Project

The company has an option agreement to acquire approximately a 65% interest in the Del Norte silver-gold property located in the Stewart-Eskay Creek mining district of northwestern British Columbia.

Rockstone Project

The company has an option agreement to acquire a 100% interest in the Rockstone mining claims located in the Thunder Bay Mining District, Ontario.

History

The company was incorporated in 1966. It was formerly known as Sabina Silver Corporation and changed its name to Sabina Gold & Silver Corp. on October 27, 2009.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
