The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Salon City Inc. business.

About Salon City Inc.

Salon City, Inc. engages in publishing activities. The company publishes Salon City Star magazine, which is a trade/consumer magazine for salons, spas, and their clients.

Products

Salon City Magazine

The company sells the magazine through national retailers, and internationally in approximately 30 countries, including, Australia, Dubai, Germany, Hong Kong, Italy, Mexico, New Zealand, Singapore, and the United Kingdom.

Online Entertainment

Saloncity.com

The company sells a digital edition of its Starmagazine in its Internet site, www.saloncity.com. Additional media products are being planned to be sold on the site, including a professional-publication and regularly produced webisodes of Salon City's new TV program featuring original content.

Projects in Development

Salon City's Beautymaker Magazine: The company's professional trade magazine, Beautymaker would be featured in selected salons and distributed and sold by its network of distributors. Beautymaker features artists and educators from the industry and would attract the professional advertisers.

Salon City Network Affiliates (Professional Beauty Distributors): The company intends to establish a network of independent distributors across North America and internationally under the Salon City Network banner. Distributors would be selected and licensed to represent Salon City in an agreed to region.

Press Events, SunFun Conference and Salon City Expos: The company produces Press Events around the United States. It produced SunFun Conference and other programs in places such as Los Angeles, New York, Miami, and Las Vegas. It intends to have the Salon City brand seen and experienced through these events, with initial emphasis being focused on domestic markets, such as Los Angeles, New York, Washington, DC, Chicago, Dallas, Houston, Miami, Las Vegas and a host of other cities.

World Beautymaker Awards: The company is in the process of developing an 'original content' awards event, the World Beautymaker Awards. The World Beautymaker Awards would be preceded by local Beautymaker of the Year events in regional areas where the company has distribution partners.

Media Artists Group (MAG): The company helps publicize individual salon professionals who have been members of its 'media artists group', MAG. These members are selected for their ability to communicate well and their desire to have recognition through Salon City's media outlets.

Competition

The company's magazine competes with Vanity Fair, Vogue, Glamour, and Cosmopolitan.

History

Salon City, Inc. was founded in 1995.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
