## **Abstracts**

Samaritan Pharmaceuticals Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Samaritan Pharmaceuticals Inc. and its competitors. This provides our Clients with a clear understanding of Samaritan Pharmaceuticals Inc. position in the Industry.

The report contains detailed information about Samaritan Pharmaceuticals Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Samaritan Pharmaceuticals Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Samaritan Pharmaceuticals Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Samaritan Pharmaceuticals Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Samaritan Pharmaceuticals Inc. business.

### **About Samaritan Pharmaceuticals Inc.**

Samaritan Pharmaceuticals, Inc., a biopharmaceutical company, engages in commercializing therapeutic products for the treatment of Alzheimer's disease, cancer, cardiovascular disease, HIV, and Hepatitis C in Greece and/or eastern European countries.

The company has partnered its oral entry inhibitor HIV drug SP-01A, in Phase II clinical trials, with Pharmaplaz, Ireland to advance to Phase III clinical trials. It is evaluating the use of Caprospinol, SP-233 in Alzheimer's disease patients; the use of SP-1000 with acute coronary disease patients; and the use of SP-30 as an 'oral treatment' for Hepatitis C patients.

### **Products**

The company has collaborative relationships with other pharmaceutical companies to commercialize branded approved prescription products in territories, such as, Greece, Albania, Bosnia, Bulgaria, Croatia, Cyprus, Czech Republic, Egypt, FYROM, Hungary, Montenegro, Poland, Romania, Serbia, Slovakia, Slovenia, Syria, and Turkey.

The company uses its know-how to register approved drugs with regulatory agencies in

the country it has acquired the rights for and then, upon regulatory approval, it distributes, markets, and sells products. The company has in-licensed the rights to sell specialty pharmaceutical products, including Amphocil from Three Rivers Pharmaceuticals; Infasurf from Ony, Inc; Caphosol, Collatamp, Erwinase, Kidrolase, and the Rapydan pain patch from EUSA; Mepivamol, Methadone, Morphine Sulphate, Naloxone, Naltrexone, Oramorph, and Pethidine from Molteni Farmaceutici; and Abioklad from Abiogen Pharma.

**ABIOKLAD:** ABIOKLAD (Disodium Clodronate) is a bisphosphonate that binds to calcium and inhibits osteoclastic bone resorption, crystal formation and dissolution, resulting in a reduction of bone turnover. ABIOKLAD is indicated for the control of malignancy-associated hypercalcemia (high levels of calcium in blood), the inhibition of osteolysis (degeneration of bone tissue) resulting malignant tumors and the decrease of bone pain. The company signed distribution deal for Greece, Cyprus, and Turkey with Abiogen Pharmaceuticals in March 2008.

**AMPHOCIL:** AMPHOCIL is a lipid form of amphotericin B indicated for the treatment of invasive aspergillosis, a life threatening systemic fungal infection. AMPHOCIL is indicated for the treatment of severe systemic and deep mycoses in cases where toxicity or renal failure precludes the use of conventional amphotericin B in effective doses, and in cases where prior systemic antifungal therapy has failed. AMPHOCIL is an approved FDA prescription product owned by Three Rivers Pharmaceuticals, Inc. and marketed by Three Rivers Pharmaceuticals, Inc. in the U.S. Samaritan markets AMPHOCIL in Greece, Cyprus, and Ireland.

**CAPHOSOL:** CAPHOSOL is a topical oral agent, is a U.S. patented, prescription medical device that lubricates the mucosa and helps maintain the integrity of the oral cavity through its mineralizing potential. CAPHOSOL is its high concentrations of calcium and phosphate ions, which are hypothesized to exert beneficial effects by diffusing into intracellular spaces in the epithelium and permeating the mucosal lesion in mucositis. Caphosol is an approved FDA prescription product and is owned by EUSA Pharma and marketed by EUSA Pharma in the U.S.

**COLLATAMP:** COLLATAMP is a lyophilized collagen sponge impregnated with the aminoglycoside antibiotic gentamicin. Collatamp is approved for the treatment and prevention of post-surgical infection. In June 2008, the company signed an agreement with EUSA for the marketing and distribution of the product Collatamp in Greece and Cyprus. It is an approved FDA prescription product and is owned by EUSA Pharma.

ELAPRASE: ELAPRASE is a human enzyme replacement therapy for the treatment of Hunter syndrome, also known as Mucopolysaccharidosis II (MPS II). ELAPRASE was granted marketing authorization for the long-term treatment of patients with Hunter's disease by the European Commission in January 2007. ELAPRASE is the first, and only, enzyme replacement therapy for Hunter's disease patients and was launched in the U.S. in July 2006. The year 2008 was the last year that the company marketed Elaprase.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

### Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

### **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

### **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

### **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
