Abstracts

ScanSource, Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between ScanSource, Inc. and its competitors. This provides our Clients with a clear understanding of ScanSource, Inc. position in the [Computers and Electronic Equipment](#) Industry.

The report contains detailed information about ScanSource, Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for ScanSource, Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The ScanSource, Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes ScanSource, Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of ScanSource, Inc. business.

About ScanSource, Inc.

ScanSource, Inc. operates as a wholesale distributor of specialty technology products, providing value-added distribution sales to resellers in the specialty technology markets.

Segments

The company operates in two segments, North American Distribution Segment and International Distribution Segment.

NORTH AMERICAN DISTRIBUTION SEGMENT

The North America distribution segment markets automatic identification and data capture (AIDC) and point-of-sale (POS) products through its ScanSource POS and Barcoding sales unit; voice, data, and converged communications equipment through its Catalyst Telecom sales unit; video conferencing, telephony, and communications products through its ScanSource Communications sales unit; and electronic security products, and wireless infrastructure products through its ScanSource Security Distribution unit.

ScanSource POS and Barcoding Sales Unit

The ScanSource POS and Barcoding sales unit markets AIDC and POS products which interface with computer systems used to automate the collection, processing, and communication of information for commercial and industrial applications, including retail sales, distribution, shipping, inventory control, materials handling, and warehouse management. The bar code family of products is referred to as automatic identification and data capture (AIDC) and it includes various types of portable data collection terminals, wireless products and bar code label printers, in addition to scanners. POS products are those PC-based products that have replaced electronic cash registers in retail and hospitality environments and the peripheral products that attach to them. These peripheral devices include such items as cash drawers, pole displays, signature capture units, display monitors, and magnetic strip readers. In addition to these peripheral devices, ScanSource POS and Barcoding also sell products that attach to the POS network in the store, including kiosks, network access points, routers, and digital signage displays.

ScanSource POS and Barcoding sales unit vendors include AIDC and POS manufacturers, including Cisco, Datalogic, Elo, Epson America, Honeywell, IBM, Intermec, Motorola, NCR, and Zebra Technologies.

Catalyst Telecom Sales Unit

The Catalyst Telecom sales unit markets voice, data, and converged communication systems, and is a distributor of Avaya communications solutions, including Avaya global communication solutions (GCS), small and medium enterprise (SME) and Internet protocol (IP) products. Catalyst Telecom also markets data and network security products from vendors, including Aruba, Extreme Networks, Juniper Networks, as well as Plantronics, Polycom, and multiple wireless vendors.

ScanSource Communications Sales Unit

ScanSource Communications is a value-added distributor of total communications solutions, including video and audio conferencing products; telephony solutions, including voice over IP (VoIP); and computer telephony building blocks. ScanSource Communications' manufacturing partners include Polycom, Audiocodes, Dialogic, and Plantronics.

ScanSource Security Sales Unit

The ScanSource Security sales unit focuses on hardware distribution of electronic security equipment using the two-tier distribution model. The product offering includes identification, access control, video surveillance, intrusion-related, and wireless infrastructure products. Manufacturers include Alvarion, Axis, Bosch, Cisco Security, Datacard, DSC, HID, Motorola Wireless, Panasonic, Ruckus Wireless, Sony, Tropos, United Technologies Fire and Security, and Zebra Card.

INTERNATIONAL DISTRIBUTION SEGMENT

The International Distribution segment markets AIDC, POS, and communications products to technology resellers and integrators in the Latin American (including Mexico) and European markets.

Products and Markets

The company markets approximately 65,000 products from approximately 200 hardware and software vendors to approximately 20,000 reseller customers primarily from its central warehouses in Mississippi, Florida, Mexico, Belgium, and Germany.

AIDC technology incorporates the capabilities for electronic identification and da

The above Company Fundamental Report is a half-ready report and contents are subject to change.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
