The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Schibsted ASA business.

About Schibsted ASA

Schibsted ASA operates as a media company. The company has a presence in newspaper, TV, film, online, mobilephone, book, and magazine media.

The company's major businesses are in Norway, Sweden, Baltics, Spain, and France. It also has operations in Denmark, Finland, Austria, Italy, Belgium, Portugal, Russia, Slovenia, Singapore, Malaysia, Phillipines, and Latin America. The company has four channels: printed newspapers, online newspapers, classified ads/directories and live pictures.

Operations

Norway

The company owns various Norwegian companies, which include the major media houses VG and Aftenposten, which in turn owns FINN, and Schibsted Forlag. In addition, the company owns major stakes in regional newspapers. It also includes publishing companies, such as Bergens Tidende AS, Stavanger Aftenblad ASA, and Fædrelandsvennen AS.

Aftenposten is a media house in Norway. It offers morning and afternoon editions. FINN.no is a classified ads Website. The online edition, aftenposten.no, has approximately one million visitors per week. Aftenposten's operations also include the sale of information from databases, the publication of magazines, distribution services and the development of new distribution systems. Aftenposten AS provides financial and IT services to subsidiaries and other Schibsted companies.

The VG media house publishes newspaper, VG; Website, www.vg.no, and personal finance magazine, Dine Penger in Norway. VG is the majority shareholder in Nettby.no, a Web community. Together with Aftenposten, VG also owns E24, business and finance news Website.

Sweden

The company's Sweden business area mainly comprises the two media houses Aftonbladet and Svenska Dagbladet. In addition, it has TV and film production company, Metronome; film distribution company, Sandrew Metronome; and the mobile contents operations, Aspiro. Blocket became a part of Schibsted Classified Media in July 2008.

International

The company's activities outside Norway and Sweden, both editorial and advertising-based services, have been organized in Schibsted International, which has operations in 20 countries. It includes the operations in the Baltic Region, 20 Minutes and the international search and classified ads online operation including Schibsted Classified Media. The company's free daily newspaper, 20 Minutos, has a daily readership of 2,889,000. It is published in 15 editions which cover Spain's major cities. Together with Schibsted, 20 Minutes owns the business Website E24.fr.

Acquisitions

In May 2008, the company acquired 100% of the shares in Kapaza Holding. The entity operates the Belgian online classified site Kapaza.be.

History

Schibsted ASA was founded in 1839.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
