The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Seirios International Inc. business.

About Seirios International Inc.

Seirios International, Inc. (Seirios) is a professional employer organization, or PEO, that provides a comprehensive personnel management system for its clients. The Company's services include a broad range of services for small businesses, including the following: payroll and benefits administration, payroll tax filings, personnel records management, workers' compensation and medical insurance, safety programs, liability management, state and federal regulatory administration and monitoring, enrollment and termination, and other human resource services.

Subsidiaries

The Company has three wholly owned subsidiaries - Seirios Staff Services, Inc. (SSSI), Seirios Staff Services of Arkansas, Inc. (SSSA), and Staff Sourcing Services, Inc. (SSS). Seirios Staff Services, Inc. provides all of the PEO services for the companies, though Seirios Staff Services of Arkansas, Inc. provides approximately two-thirds of the combined Companies' total business (based on client contracts).

Products/Services

Seirios offers an array of value added human resource management services to its

clients and also offers a range of benefits to the work-site employees. The Company's services include:

Payroll Management: These services include: Payroll processing and paycheck preparation and delivery, Federal and State tax withholding, payment and reporting, garnishments, and tracking of employee accrued vacation and absences.

Section 125 Cafeteria Plan: This product package is a full feature 125 Plan and provides a pretax income benefit for payment of Medical, Dental and Vision premiums, and for out-of-pocket unreimbursed expenses such as Medical, Dental, and Vision co-payments and deductibles, and Child Care expenses.

Workers Compensation Programs and Risk Management: Workers' Compensation insurance is carried on all employees on a full-first-dollar coverage basis. These programs also cover assistance in compliance with OSHA, EPA, and other federal and state regulatory agencies that require scheduled reporting, as well as supervised and documented safety programs, loss prevention and risk control services.

Comprehensive Health Insurance Coverage and Benefits: Fully insured programs, providing employee health, life and disability insurance needs; including dental and vision care options are services included in this package.

Human Resource Management: A package of services including recruiting, pre-employment screening, continuous training, employee retention through benefit enhancement, and, when beneficial, discontinuing the employee/employer relationship. Compliance with the Internal Revenue Service (IRS), Equal Employment Opportunity Commission (EEOC), Employee Retirement Income Security Act (ERISA), Consolidated Omnibus Budget Reconciliation Act of 1987 (COBRA), Family Medical Leave Act (FMLA), American with Disabilities Act (ADA), etc.

401(k) Retirement Savings Plan: This product provides a profit-sharing plan with a cash or deferred arrangement (CODA) under the Internal Revenue Code of 1986 (Code) Section 401(k) and a matching contributions feature.

Employee Assistance Plan: This service is a telephone and limited in-person counseling service provided through a national third party provider.

Gap insurance coverages: A national third party provider provides a number of packages of coverage for such needs as cancer, critical disease, short-term disability,

dental and vision care, etc. These coverages are offered as an option to all employees at the time of enrollment as employees of Seirios.

Special Banking and Credit benefits: The Company began the consolidation all of its banking with a national bank in order to obtain added benefits for its Clients through a one stop banking arrangement.

Other Client or Employee Services: The Company continually seeks to improve its package of services for clients and leased employees.

Market

The Company targets the Dallas Metroplex, Houston, Oklahoma and Arkansas market areas.

Competition

The Company's Competitors include Administaff, Inc., Staff Leasing, Inc. and The Vincam Group, Inc.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
