Abstracts

Shoshone Silver Mining Company Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between Shoshone Silver Mining Company and its competitors. This provides our Clients with a clear understanding of Shoshone Silver Mining Company position in the [Metals and Mining](#) Industry.

The report contains detailed information about Shoshone Silver Mining Company that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for Shoshone Silver Mining Company. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The Shoshone Silver Mining Company financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios

pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Shoshone Silver Mining Company competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Shoshone Silver Mining Company business.

About Shoshone Silver Mining Company

Shoshone Silver/Gold Mining Company engages in the exploration, development, and production of mineral resource properties in Idaho, Montana, Arizona, and Washington.

The company has a portfolio of properties, including approximately 2,692 acres (1,090 hectares) in its Silver Division, approximately 2,125 acres (896 hectares) in its Gold Division, and approximately 200 acres (80 hectares) of Potential Platinum properties.

In 2009 Shoshone leased 35 patented mining claims known as the Camp Project claims. These claims are located in the Silver Valley.

Idaho Lakeview District Holdings

The company has a group of patented and unpatented properties located in Bonner County near the Shoshone milling facility commonly referred to as the Idaho Lakeview District Properties. This group includes the Idaho Lakeview, Weber, Keep Cool, Auxer, and Talache properties.

Idaho Lakeview, Keep Cool, and Weber: The Idaho Lakeview, Weber, and Keep Cool

groups are located contiguously around an area of Bonner County near Shoshone's Idaho Lakeview Mill. The Idaho Lakeview and Keep Cool Groups comprise 9 patented and 14 unpatented lode mining claims. The Weber Group comprises 6 patented and 10 unpatented lode mining claims. An additional 7 unpatented lode mining claims were staked by the company. The Idaho Lakeview Millsite consists of a mill and water treatment facility on 12.5 patented acres.

Drumheller Group: The Auxer Mine is a precious metal mine located in Bonner County, Idaho. The Auxer property consists of 2 contiguous unpatented mining claims covering 40 acres.

Talache Group: The Talache silver-gold property is located in Bonner County. The property consists of 2 unpatented mining claims covering 40 acres of Bureau of Land Management (BLM) land.

Silver Valley Holdings

The company has three holdings in Idaho's Silver Valley, such as the Shoshone and Bullion.

Shoshone Group: The company has a group of patented lode claims commonly referred to as the Shoshone Group located contiguously around an area within the St. Joe Mining District in Shoshone County, Idaho. The Shoshone Group consists of 5 patented lode claims totaling 96 acres in the St. Joe Mining District.

Bullion Group: The company has a group of patented properties commonly referred to as the Bullion Group located contiguously within the St. Joe Mining District in eastern Shoshone County, Idaho. The Bullion Group consists of 7 patented lode claims totaling 138 acres.

Central Idaho Holdings

Warren District

Rescue Gold Mine: The company holds 82 unpatented mining claims and 2 unpatented mill-site claims covering 1,720 acres in central Idaho.

Iola Claims: The company leases 5 patented mining claims in central Idaho covering 70 acres.

Silver King Claims: The company leases 12 patented mining claims in central Idaho covering 174 acres.

Marshall Mountain District:

Kimberly Gold Mine: The company holds 24 unpatented mining claims covering 480 acres in central Idaho. The mine consists of 10 separate tunnels which explore 7,500 feet of previously producing workings.

North Idaho Holdings

The company has two holdings in Boundary County, Idaho, including the Regal and Montgomery Mines.

Regal Mine: The Regal Mine is a base and precious metal mine located in the Moyie-Yaak Mining District, Boundary County, Idaho. The Regal property consists of 4 contiguous unpatented mining claims that cover 80 acres of BLM property in the Moyie-Yaak Mining District, Boundary County, Idaho.

Montgomery Mine Group: The company controls unpatented claims that cover and surround the Montgomery Mine near Copeland in Boundary County, Idaho. Montgomery Mine claim group consists of 25 unpatented lode claims covering 500 acres of BLM land.

Montana Holdings

The company has two property groups in Montana, including the Stillwater Extension Claims and the Princeton Gulch Group.

Stillwater Extension Claims: The Stillwater Extension property consists of 10 unpatented lode claims covering 200 acres of the Stillwater Complex of south central Montana. The Stillwater Complex is a mafic-ultramafic layered intrusive that includes the 28-mile long J-M Reef, which hosts Platinum Group Metals (PGM).

Princeton Gulch Group: The company controls unpatented claims that cover and surround the Princeton Gulch placer in Granite County in south central Montana. This claim group consists of 4 unpatented placer claims covering 80 acres and 2 unpatented lode claims covering 40 acres, for a total of 120 acres.

Arizona Gold Holdings

The company holds two claim groups in the Oatman Mining District: the Western Gold and Gold Road Claims along with the Cerro Colorado Group in Pima County, Arizona.

Western Gold Claims: The Western Gold property consists of 13 unpatented lode claims covering 240 acres within the Oatman Mining District of Mohave County, Arizona.

Gold Road Claims: The Arizona property consists of 16 unpatented lode claims located in Mohave County, Arizona covering 320 acres of the Oatman mining district of northwest Arizona.

Cerro Colorado Group: The company controls 3 unpatented claims covering 60 acres in the Cerro Colorado Mining District 35 miles southwest of Tucson, Arizona.

Washington Holdings

The company controls 19 unpatented mining claims covering 380 acres in the heart of the Wenatchee Gold Belt located in central Washington.

History

The company was founded in 1969. It was formerly known as Sunrise Mining Company and changed its name to Shoshone Silver Mining Company in 1970. Further, it changed its name to Shoshone Silver/Gold Mining Company in 2009.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
