The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Signature Leisure, Inc. business.

About Signature Leisure, Inc.

Signature Leisure, Inc. provides modeling and event staffing, information technology consulting, and investor relations and business consulting solutions.

Investor Relations Division

The company engages in the investor relations and consulting business. It provides investor relations services for publicly traded companies. It focuses on developing a list of clients that are listed on either the Pink Sheets or the Over-The-Counter Bulletin Boards. The company also provides general business consulting services to privately held companies. It assists client companies with various projects and business management services. In addition, it provides services relating to business structure and organizational management, corporate planning, and strategic growth management.

E Cubed Technologies, Inc.

The company is an authorized dealer of DocStar, a document imaging solution builder. DocSTAR, which is a product of AuthentiDate, Inc., provides clients with a document imaging and retrieval solution. DocSTAR (Document Storage and Retrieval) offers

software products for the document imaging industry with a suite of software solutions that scans, stores, and retrieves documents.

DocSTAR is a document storage and retrieval system which takes paper documents, indexes, and stores them for later retrieval by end users either at the host system or a client workstation on the local computer network. The company is an authorized reseller of Dell products.

Parker Productions, Inc.

Parker Productions, Inc. engages in the modeling and event staffing business. The individual models and staff that the company provides to clients operate as independent contractors to the company. Parker Productions contracts models and event staff for client companies and organizations to utilize for special events and promotions.

The company provides customers with two basic forms of service. The first type of service is providing staff (models) for area conventions. Such type of services would include providing staff members to assist in managing the company's booth at a convention. The staff member would assist the client with visitors to the client's booth.

The second form of service is in the form of beverage promotions. Such promotions take place in area bars, in which Parker staff assist the client to gain product awareness from the bar patrons.

Discontinued Operations

In January 2007, the company discontinued the operations of Signature Auto.

Competition

Parker Productions: The company's competitor in the modeling and event staffing business is Axis Talent and Promotions.

E Cubed Technologies: The competitors for E Cubed Technologies include CompUSA and Best Buy.

History

The company was incorporated in 2000 as JDLPhotos.com, Inc. and changed its name

to Valde Connections, Inc. in February 2003. Further, it changed its name to Signature Leisure, Inc. in August 2003.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
