The Silver Grail Resources Ltd. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and

company's long-term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes Silver Grail Resources Ltd. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of Silver Grail Resources Ltd. business.

About Silver Grail Resources Ltd.

Silver Grail Resources Ltd., an exploration stage company, engages in the acquisition and exploration of mineral properties, primarily in the Stewart-Eskay Creek region of northwestern British Columbia.

Stewart Region Properties

Clone Property

The Clone property is owned 50-50 with Teuton Resources Corp. (Teuton) and is located approximately 16 kilometres southeast of Stewart, British Columbia.

In 2005, the company and joint owner Teuton announced that they had optioned the Clone property to Canasia Industries Corporation. Under the terms of the agreement, Canasia can earn a 50% interest in the Clone property.

Mt. Boy Property: The property is situated 12 miles north of Stewart, BC, on American Creek.

Konkin Silver Property: The Konkin Silver property is located 29 kilometres east of

Stewart, British Columbia.

Tonga-Fiji Property: The company and Teuton jointly own the Tonga-Fiji property situated 24 kilometres north of Alice Arm, British Columbia.

Midas Property: The Midas claims are situated 28 kilometers east of Stewart, BC, and adjoin the Konkin Silver property to the north, and the Del Norte property of Teuton to the south. Silver Grail and Teuton both own a 50% interest in the Midas property.

Campbell Ridge Property: The Campbell Ridge property is located 35 kilometres southeast of Stewart, BC, on the east side of Hastings Arm. Silver Grail and Teuton own the property jointly (50-50).

Additional Stewart region properties: The company, jointly with Teuton, owns interests in various other properties throughout the Stewart region. The company owns a 50% interest (with the remaining 50% owned by Teuton) in 1 claim representing 612 hectares. The company and Teuton has an option agreement with Decade Resources Ltd. whereby Decade has the right to earn 100% interest in Teuton and the company's jointly owned Tenure #508269 property situated in the Skeena Mining Division in British Columbia.

Harrison Lake Property: The company owns the Andy claims on Talc Creek, east of Harrison Lake, approximately 100 kilometres east of Vancouver, BC. The Andy property was optioned to Leader Mining International Inc. (Leader). The company owns a 100% interest in 11 claims representing 1,169 hectares.

Mountain Boy Claims, Skeena Mining Division, British Columbia

The company owns 50% in 7 claims representing 41 units. Mountain Boy Minerals Ltd. owns the other 50% interest. The company and the Optionee entered into a joint venture, with each party initially owning a 50% interest therein.

Redoubt Claims, Skeena Mining Division, British Columbia

The company owns a 50% interest (with the remaining 50% owned by Teuton) in two claims representing 901 hectares. The company and Teuton has an agreement with Bear River Resources Inc. (Bear River) whereby Bear River purchased a 100% interest in Teuton and the company's jointly owned Redoubt Claims property.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
