The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of SJW Corp. business.

## **About SJW Corp.**

SJW Corp., through its subsidiaries, San Jose Water Company, provides water service to the greater metropolitan San Jose area.

### **Subsidiaries**

San Jose Water Company, a wholly owned subsidiary of SJW Corp., is a public utility in the business of providing water service to approximately 226,000 connections that serve a population of approximately 1 million people in an area comprising approximately 142 square miles in the metropolitan San Jose area.

SJW Land Company, a wholly owned subsidiary of SJW Corp., owns undeveloped land in the states of California and Tennessee. It owns and operates commercial buildings in the states of California, Florida, Connecticut, Texas, Arizona and Tennessee, and has a 70% limited partnership interest in 444 West Santa Clara Street, L.P.

SJWTX, Inc., a wholly owned subsidiary of SJW Corp., does business as Canyon Lake Water Service Company (CLWSC). CLWSC is a public utility in the business of providing water service to approximately 9,000 connections that serve approximately 36,000 people in western Comal County and southern Blanco County. The company's service area comprises approximately 237 square miles in the region between San

Antonio and Austin.

Texas Water Alliance Limited (TWA), a wholly owned subsidiary of SJW Corp., undertakes activities that are necessary to develop a water supply project in Texas.

## Business

The principal business of the company consists of production, purchase, storage, purification, distribution, wholesale, and retail sale of water. San Jose Water Company provides water service to approximately 226,000 connections that serve customers in portions of the cities of Cupertino and San Jose and in the cities of Campbell, Monte Sereno, Saratoga and the Town of Los Gatos, and adjacent unincorporated territory, all in the County of Santa Clara in the State of California. It distributes water to customers in accordance with accepted water utility methods. CLWSC provides water service to approximately 9,000 connections that serve approximately 36,000 people in a service area comprising approximately 237 square miles in the region between San Antonio and Austin, Texas.

San Jose Water Company also provides non-regulated water related services under agreements with municipalities. These non-regulated services include full water system operations and billing and cash remittance services.

## Water Supply

San Jose Water Company's water supply consists of groundwater from wells, surface water from watershed run-off and diversion, and imported water purchased from the Santa Clara Valley Water District (SCVWD) under the terms of a master contract with SCVWD. San Jose Water Company pumps approximately 40% to 50% of its water supply from the underground basin and pays a groundwater extraction charge to SCVWD.

The pumps and motors at San Jose Water Company's groundwater production facilities are propelled by electric power. San Jose Water Company has installed standby power generators at 30 of its strategic water production sites.

CLWSC's water supply consists of groundwater from wells and purchased raw water from the Guadalupe-Blanco River Authority (GBRA).

## Franchises

Franchises granted by local jurisdictions permit the Water Utility Services to construct, maintain, and operate a water distribution system within the streets and other public properties of a given jurisdiction. San Jose Water Company holds the necessary franchises to provide water in portions of the cities of San Jose and Cupertino and in the cities of Campbell, Monte Sereno and Saratoga, the town of Los Gatos and the unincorporated areas of Santa Clara County.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
