## Abstracts

SNC Lavalin Group Inc. Fundamental Company Report provides a complete overview of the company's affairs. All available data is presented in a comprehensive and easily accessed format. The report includes financial and SWOT information, industry analysis, opinions, estimates, plus annual and quarterly forecasts made by stock market experts. The report also enables direct comparison to be made between SNC Lavalin Group Inc. and its competitors. This provides our Clients with a clear understanding of SNC Lavalin Group Inc. position in the [Engineering and Construction Services](#) Industry.

The report contains detailed information about SNC Lavalin Group Inc. that gives an unrivalled in-depth knowledge about internal business-environment of the company: data about the owners, senior executives, locations, subsidiaries, markets, products, and company history.

Another part of the report is a SWOT-analysis carried out for SNC Lavalin Group Inc.. It involves specifying the objective of the company's business and identifies the different factors that are favorable and unfavorable to achieving that objective. SWOT-analysis helps to understand company's strengths, weaknesses, opportunities, and possible threats against it.

The SNC Lavalin Group Inc. financial analysis covers the income statement and ratio trend-charts with balance sheets and cash flows presented on an annual and quarterly basis. The report outlines the main financial ratios pertaining to profitability, margin analysis, asset turnover, credit ratios, and company's long-

term solvency. This sort of company's information will assist and strengthen your company's decision-making processes.

In the part that describes SNC Lavalin Group Inc. competitors and the industry in whole, the information about company's financial ratios is compared to those of its competitors and to the industry. The unique analysis of the market and company's competitors along with detailed information about the internal and external factors affecting the relevant industry will help to manage your business environment. Your company's business and sales activities will be boosted by gaining an insight into your competitors' businesses.

Also the report provides relevant news, an analysis of PR-activity, and stock price movements. The latter are correlated with pertinent news and press releases, and annual and quarterly forecasts are given by a variety of experts and market research firms. Such information creates your awareness about principal trends of SNC Lavalin Group Inc. business.

### **About SNC Lavalin Group Inc.**

SNC-Lavalin Group, Inc. provides engineering, construction, and operations and maintenance services worldwide. It also makes selective investments in infrastructure concessions that are complementary to its other activities. The company operates across a range of industry sectors.

#### **Infrastructure**

This segment engages in the planning, development and operation of a range of infrastructure projects, and it provides engineering, procurement, construction and construction management (EPC and EPCM) services for projects of all sizes. The company's activities in this sector includes airports, bridges, buildings, ports, ferry terminals, flood control systems, healthcare facilities, mass transit systems, railways, roads, and water treatment/distribution infrastructure and facilities for the public and private sectors.

#### **Environment**

This segment engages in the power, infrastructure, chemicals and petroleum, industrial, mining and rural development sectors. The company's activities in this sector includes

environmental impact assessments and studies; site assessment, remediation and reclamation; ecological and human health risk assessment; waste management, water and wastewater; marine and coastal management; air quality and acoustics; environmental management; climate change; institutional strengthening and rural development.

## Chemicals and Petroleum

This segment includes gas processing; heavy and conventional oil production; onshore and offshore oil and gas; liquefied natural gas (LNG); coal to liquid gas; carbon capture, transportation and sequestration; pipelines, terminals and pump stations; refining and upgrading; bitumen production; biofuels; petrochemicals; chemicals and fertilizers.

## Power

This segment involves in power projects. Its projects represent an installed capacity of approximately 250,000 megawatts, approximately 90,000 kilometers of transmission and distribution lines and approximately 1,500 substations. The company's project services include front end engineering for project feasibility, detailed design, building, commissioning, and operating power facilities on a cost-plus reimbursable or lump-sum turnkey basis. The company's areas of activity include power generation, transmission and distribution projects and energy control systems. The company also provides sustainable development training programs.

## Mining and Metallurgy

This segment engages in carrying out projects in the fields of alumina, aluminum, bauxite, copper, diamonds, gold, iron ore, nickel, phosphate, potash, steel, zinc and other commodities. The company's global services range from scoping studies to full project implementation. The company provides project management, process and detailed engineering, procurement and construction services for all mineral and metal recovery processes, including mine development, mineral processing, smelting, refining, mine closure and reclamation.

## Operations and Maintenance

This segment provides operations and maintenance (O&M) services, with a portfolio covering both public and private sector infrastructure in North America, the Middle East, and Africa. The company provides operations, maintenance and logistics solutions for

buildings, power plants, water supply and treatment systems, postal services, broadcasting facilities, highways, bridges, light rail transit systems, airports, military and construction camps and ships.

### Infrastructure Concession Investments

This segment makes investments in infrastructure concessions in various industry sectors including airports, bridges, power, mass transit systems, roads and water. The company designs, builds, owns, operates, and maintains infrastructure facilities and systems.

### Agrifood

This segment offers a range of services, including food processing to packaging, handling, distribution and storage facilities. The company serves companies of all sizes in their domestic markets and internationally.

### Pharmaceuticals and Biotechnology

This segment provides service solutions for the pharmaceutical, biotechnology and life sciences sectors, including engineering, construction and validation. The company also has international expertise in biotechnology and pharmaceutical process engineering and regulatory compliance.

### Industrial

This segment maintains capabilities in the manufacturing, industrial chemicals, sulphuric and phosphoric acid and fertilizer sectors, with specialized expertise in areas such as instrumentation and automation, material handling, machinery design, filling and packaging lines, and CO<sub>2</sub> and SO<sub>2</sub> capture. The company's areas of activity include glass, lubricants, automobile and aircraft assembly, cosmetics, filling and packaging lines, sulphuric and phosphoric acid and many others. The company's services range from process development and design, to plant commissioning and start up, and include services in instrumentation and automation.

### Project Financing

This segment offers worldwide modelling, financing arrangement and advisory services for its projects and for third party clients.

## Significant Events

On January 27, 2010, SNC Lavalin Group Inc. and Vnesheconombank announced the formation of VEB Engineering LLC, a Russian company that would be jointly owned by SNC-Lavalin and the Bank.

## History

SNC-Lavalin Group, Inc. was founded in 1911.

The above Company Fundamental Report is a half-ready report and contents are subject to change.

It means that we have all necessary data in our database to prepare the report but need **2-3 days** to complete it. During this time we are also updating the report with respect to the current moment. So, you can get all the most recent data available for the same price. Please note that preparation of additional types of analyses requires extra time.

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

## Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

## **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

### **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

### **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

## Reputation

### Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
