### **About Source Direct Holdings Inc.**

Source Direct Holdings, Inc., a development stage company, through its wholly-owned subsidiary, Source Direct, Inc., engages in the marketing and promotion of cleaning supplies. The company also engages in product development and sales.

#### **Divisions**

The company operates through three divisions: household products, automotive products and industrial products.

#### **Household Products Division**

**Simply Wow: Organic** Simply Wow is an all-purpose cleaner any washable surface. Simply Wow is developed with nonionic surfactants that contain penetrating and suspending agents that dissolve the toughest grease, protein, dirt, and oil stains. The product is a water-based, multipurpose, biodegradable, nontoxic degreaser.

**Stain Pen:** Stain Pen is an on-the-spot stain remover. This product has a formula that removes food stains, oil paint (wet or dry), makeup, wine, blood, grass stains, grease, coffee and tea stains and copy machine stains with no harmful fumes or liquid to spill.

Stain Pen works by applying a small amount of stain pen solution to the stain and applying a damp cloth.

Simply WoW Odor Annihilator: The Odor Annihilator is an organic, biodegradable cleaning product designed to eliminate household odors.

Simply WoW Laundry Detergent: The company's Simply WoW Laundry Detergent would join Source Direct's family of all-organic, biodegradable cleaning products used in everyday 'green' living.

#### Automotive Products Division

Simply Wow Tuff Buff: Source Direct launched its new all-organic, waterless, wash-n-wax product. Tuff Buff provides solutions for the discerning driver, professional and hobbyist. Tuff Buff restores factory shine, safely removes bugs and bird droppings, cleans and protects all finishes including plexiglass and black chrome, is safe for aftermarket window tint, and would not leave white residue in seams. Tuff Buff polishes and protects any hard nonporous surface, including windshields.

Simply WoW Odor Annihilator: The company offers the Odor Annihilator into the automotive market as well as the household market.

Simply WoW Auto Care Kit: Simply WoW Auto Care Kit is a sampling program that it would generate brand name recognition and market penetration.

Simply WoW for Motorcycles: The company introduced Simply WoW for Motorcycles into the market. It offers a new, green cleaning product for the motorcycle industry. It contains no harmful agents, such as acid, hexane, silicone or petroleum distillates.

#### Industrial Products Division

Simply WoW Industrial Cleaner: The Wow Industrial Cleaner has been designed to remove grease, oil, wax, tar, and dirt, and to meet other industrial cleaning needs.

#### Suppliers

## ANALYSIS FEATURES

### SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

### Enhanced SWOT Analysis

Enhanced SWOT is a 3×3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

### PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

### Key Factors Examined by PESTEL Analysis:

**Political** – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

**Economic** – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

**Sociological** – What cultural and societal aspects will work upon the demand for the business's products and operations?

**Technological** – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

**Environmental** – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

**Legal** – What laws and legislation will exert influence on the style the business is carried out?

### **IFE, EFE, IE Matrices**

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

## **Porter Five Forces Analysis**

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

## **VRIO Analysis**

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
