Such information creates your awareness about principal trends of Spanish Broadcasting System Inc. business.

About Spanish Broadcasting System Inc.

Spanish Broadcasting System, Inc. operates as a media and entertainment company in the United States. The company owns and/or operates 21 radio stations located in Los Angeles, New York, Puerto Rico, Chicago, Miami, and San Francisco. The company also owns two television stations, which operate as one television operation, branded MegaTV. MegaTV reaches approximately 2.0 million households in the South Florida market, and through affiliation, programming and local marketing agreements nationally throughout the U.S., including Puerto Rico, it reaches approximately 4.5 million households.

Segments

The company operates two segments: Radio and Television.

Radio segment

The company formats the programming of each of its radio stations to capture a substantial share of the U.S. Hispanic audience in its respective market. Each of its programming formats is as follows:

Spanish Tropical: The Spanish Tropical format primarily consists of salsa, merengue, bachata and reggaeton music.

Regional Mexican: The Regional Mexican format consists of various types of music played in different regions of Mexico such as ranchera, nortena, banda and cumbia. Ranchera music, originating from Jalisco, Mexico, is a traditional folkloric sound commonly referred to as mariachi music.

Spanish Adult Contemporary: The Spanish Adult Contemporary format includes soft romantic ballads and Spanish pop music, as well as, international hits from Puerto Rico, Mexico, Latin America, and Spain.

Spanish Oldies: The Spanish Oldies format includes various Latin and English classics, mainly from the 1960's, 1970's, and 1980's.

Top 40: The Top 40 format consists of the most popular chart hits.

Latin Rhythmic: The Hispanic Urban (Hurban) format consists of 'reggaeton', which is dance music that originated in Panama and Puerto Rico and has evolved into a mix of Spanish- and English-language dance hall, traditional reggae, Latin pop and Spanish hip-hop.

On-Line Properties

As part of its media operating business, the company also operates LaMusica.com, Mega.tv, and radio station Web sites, which are bilingual (Spanish-English) Web sites providing content related to Latin music, entertainment, news, and culture. It also produces live concerts and events throughout the United States, including Puerto Rico.

Television segment

MegaTV, the company's general entertainment Spanish-language television operation, serves the South Florida market. The company's programming is formatted to capture shares of the market's young U.S. Hispanic audience by focusing as an 'entertainment' company, thus offering a new alternative. MegaTV's programming is based on a strategy designed to showcase a combination of programs, ranging from televised radio-branded shows to general entertainment programs, such as music, celebrity, debate, interviews, and personality-based shows.

History

Spanish Broadcasting System, Inc. was founded in 1983.

ANALYSIS FEATURES

SWOT Analysis

SWOT, which stands for Strengths, Weaknesses, Opportunities and Threats, is an analytical framework that identifies the internal and external factors that are favorable and unfavorable for a company.

Enhanced SWOT Analysis

Enhanced SWOT is a 3x3 grid that arranges strengths, weaknesses, opportunities and threats into one scheme:

How to use the strengths to take advantage of the opportunities?

How to use the strengths to reduce likelihood and impact of the threats?

How to overcome the weaknesses that obstruct taking advantage of the opportunities?

How to overcome the weaknesses that can make the threats a reality?

Upon answering these questions a company can develop a project plan to improve its business performance.

PESTEL Analysis

PESTEL (also termed as PESTLE) is an ideal tool to strategically analyze what influence different outside factors – political, economic, sociocultural, technological, environmental and legal – exert on a business to later chart its long term targets.

Being part of the external analysis when carrying out a strategic assessment or performing a market study, PESTEL gives an overview of diverse macro-environmental factors that any company should thoughtfully consider. By perceiving these outside environments, businesses can maximally benefit from the opportunities while minimizing the threats to the organization.

Key Factors Examined by PESTEL Analysis:

Political – What opportunities and pressures are brought by political bodies and what is the degree of public regulations' impact on the business?

Economic – What economic policies, trends and structures are expected to affect the organization, what is this influence's degree?

Sociological – What cultural and societal aspects will work upon the demand for the business's products and operations?

Technological – What impact do the technological aspects, innovations, incentives and barriers have on the organization?

Environmental – What environmental and ecological facets, both locally and farther afield, are likely to predetermine the business?

Legal – What laws and legislation will exert influence on the style the business is carried out?

IFE, EFE, IE Matrices

The Internal Factor Evaluation matrix (IFE matrix) is a strategic management tool helping audit or evaluate major weaknesses and strengths in a business's functional areas. In addition, IFE matrix serves as a basis for identifying and assessing relationships amongst those areas. The IFE matrix is utilised in strategy formulation.

The External Factor Evaluation matrix (EFE matrix) is a tool of strategic management that is typically utilised to assess current market conditions. It is an ideal instrument for visualising and prioritising the threats and opportunities a firm is facing.

The essential difference between the above mentioned matrices lies in the type of factors incorporated in the model; whilst the latter is engaged in internal factors, the former deals exceptionally with external factors – those exposed to social, political, economic, legal, etc. external forces.

Being a continuation of the EFE matrix and IFE matrix models, the Internal External matrix (IE matrix) rests upon an investigation of external and internal business factors

integrated into one suggestive model.

Porter Five Forces Analysis

The Porter's five forces analysis studies the industry of operation and helps the company find new sources of competitive advantage. The analysis surveys an industry through five major questions:

What composes a threat of substitute products and services?

Is there a threat of new competitors entering the market?

What is the intensity of competitive rivalry?

How big is the bargaining power of buyers?

How significant is the bargaining power of suppliers?

VRIO Analysis

VRIO stands for Value, Rarity, Imitability, Organization. This analysis helps to evaluate all company's resources and capabilities and bring them together into one aggregate table that includes:

Tangible resources

Financial

Physical

Technological

Organizational

Intangible resources

Human

Innovation and Creativity

Reputation

Organizational capabilities

The result of the analysis gives a clear picture of company's competitive and economic implications, answering the questions if the resources mentioned above are:

Valuable?

Rare?

Costly to imitate?

Organized properly?
